

Supporting Information to

**Biodiversity within *Melissa officinalis*: Variability of Bioactive Compounds in a Cultivated Collection**

**Table S1:** Oil yield in leaves and stems of lemon balm, *Melissa officinalis* ssp. *officinalis* (MOFF) and *M. officinalis* ssp. *altissima* (MALT), ( $\mu\text{g/g}$ , calculated from the FID signal)

**Table S2:** Composition of the leaf essential oils from *Melissa officinalis* (% of total peak area on a apolar HP5-MS column, calculated from the FID signal)

**Table S3:** Composition of the stem essential oils from *Melissa officinalis* (% of total peak area on a apolar HP5-MS column, calculated from the FID signal)

**Figure S1:** *Melissa officinalis*: composition of the leaf essential oils from the 1st cut

**Figure S2:** *Melissa officinalis*: composition of the leaf essential oils from the 2nd cut

**Figure S3:** *Melissa officinalis*: composition of the stem essential oils from the 1st cut

**Figure S4:** *Melissa officinalis*: composition of the stem essential oils from the 2nd cut

**Table S1:** Oil yield in leaves and stems of lemon balm, *Melissa officinalis* ssp. *officinalis* (MOFF) and *M. officinalis* ssp. *altissima* (MALT), ( $\mu\text{g/g}$ , calculated from the FID signal)
