

Supplementary Figure 1

Hypothalamic dorsomedial nuclei

Thalamic Mediodorsal nuclei

Supplementary Figure 1: Hypothalamic dorsomedial (DMHa) and thalamic mediodorsal (MD) regions expressing AdipoR2 in wild-type mouse cortex. AdipoR2 is expressed by neurons in the DMHa (a, b) and MD (c, d) nuclei in aged WT mice at 48-52w. Images were acquired at 20x magnification. Scale bars for (a) and (c) are 200 μm and (b)–(d) are 50 μm .
