

## Supplementary File 3. Statistical Analysis

**Table 2**

Effect of **C** on **TC** within the total of participants

		Independent Samples Test								
		Levene's Test for Equality of Variances		t-test for Equality of Means						
		F	Sig.	t	df	Sig. (2-tailed)	Mean Difference	Std. Error Difference	95% Confidence Interval of the Difference	
									Lower	Upper
TC	Equal variances assumed	.042	.839	.501	46	.619	4.50000	8.97772	-13.57122	22.57122
	Equal variances not assumed			.501	45.994	.619	4.50000	8.97772	-13.57128	22.57128

Effect of **SE** on **TC** within the total of participants

		Independent Samples Test								
		Levene's Test for Equality of Variances		t-test for Equality of Means						
		F	Sig.	t	df	Sig. (2-tailed)	Mean Difference	Std. Error Difference	95% Confidence Interval of the Difference	
									Lower	Upper
TC	Equal variances assumed	.129	.721	3.677	52	.001	33.74074	9.17529	15.32918	52.15230
	Equal variances not assumed			3.677	51.786	.001	33.74074	9.17529	15.32737	52.15411

Effect of **Ex** on **TC** within the total of participants

		Independent Samples Test								
		Levene's Test for Equality of Variances		t-test for Equality of Means						
		F	Sig.	t	df	Sig. (2-tailed)	Mean Difference	Std. Error Difference	95% Confidence Interval of the Difference	
									Lower	Upper
TC	Equal variances assumed	.296	.588	1.977	52	.053	19.81481	10.02430	-.30042	39.93005
	Equal variances not assumed			1.977	51.753	.053	19.81481	10.02430	-.30271	39.93233

Effect of **Sm** on **TC** within the total of participants

		Independent Samples Test								
		Levene's Test for Equality of Variances		t-test for Equality of Means						
		F	Sig.	t	df	Sig. (2-tailed)	Mean Difference	Std. Error Difference	95% Confidence Interval of the Difference	
									Lower	Upper
TC	Equal variances assumed	.238	.628	1.665	46	.103	18.20833	10.93908	-3.81090	40.22757
	Equal variances not assumed			1.665	45.950	.103	18.20833	10.93908	-3.81155	40.22821

Effect of **C** on **TG** within the total of participants

		Independent Samples Test								
		Levene's Test for Equality of Variances		t-test for Equality of Means						
		F	Sig.	t	df	Sig. (2-tailed)	Mean Difference	Std. Error Difference	95% Confidence Interval of the Difference	
									Lower	Upper
TG	Equal variances assumed	.070	.793	.653	44	.517	6.04348	9.25740	-12.61358	24.70054
	Equal variances not assumed			.653	43.973	.517	6.04348	9.25740	-12.61391	24.70086

Effect of **SE** on **TG** within the total of participants

**Independent Samples Test**

		Levene's Test for Equality of Variances		t-test for Equality of Means						
		F	Sig.	t	df	Sig. (2-tailed)	Mean Difference	Std. Error Difference	95% Confidence Interval of the Difference	
									Lower	Upper
TG	Equal variances assumed	.362	.550	1.853	46	.070	22.50000	12.14025	-1.93706	46.93706
	Equal variances not assumed			1.853	43.368	.071	22.50000	12.14025	-1.97714	46.97714

Effect of **Ex** on **TG** within the total of participants

**Independent Samples Test**

		Levene's Test for Equality of Variances		t-test for Equality of Means						
		F	Sig.	t	df	Sig. (2-tailed)	Mean Difference	Std. Error Difference	95% Confidence Interval of the Difference	
									Lower	Upper
TG	Equal variances assumed	.033	.857	1.263	50	.212	15.11538	11.96518	-8.91738	39.14815
	Equal variances not assumed			1.263	49.946	.212	15.11538	11.96518	-8.91803	39.14880

Effect of **Sm** on **TG** within the total of participants

**Independent Samples Test**

		Levene's Test for Equality of Variances		t-test for Equality of Means						
		F	Sig.	t	df	Sig. (2-tailed)	Mean Difference	Std. Error Difference	95% Confidence Interval of the Difference	
									Lower	Upper
TG	Equal variances assumed	.160	.691	1.374	46	.176	14.12500	10.27909	-6.56573	34.81573
	Equal variances not assumed			1.374	45.736	.176	14.12500	10.27909	-6.56895	34.81895

Effect of **C** on **LDL-C** within the total of participants

**Independent Samples Test**

		Levene's Test for Equality of Variances		t-test for Equality of Means						
		F	Sig.	t	df	Sig. (2-tailed)	Mean Difference	Std. Error Difference	95% Confidence Interval of the Difference	
									Lower	Upper
LDL	Equal variances assumed	.199	.658	.416	42	.680	3.90000	9.38077	-15.03117	22.83117
	Equal variances not assumed			.416	41.906	.680	3.90000	9.38077	-15.03243	22.83243

Effect of **SE** on **LDL-C** within the total of participants

**Independent Samples Test**

		Levene's Test for Equality of Variances		t-test for Equality of Means						
		F	Sig.	t	df	Sig. (2-tailed)	Mean Difference	Std. Error Difference	95% Confidence Interval of the Difference	
									Lower	Upper
LDL	Equal variances assumed	.031	.861	3.461	46	.001	34.62500	10.00352	14.48896	54.76104
	Equal variances not assumed			3.461	45.876	.001	34.62500	10.00352	14.48748	54.76252

Effect of **Ex** on **LDL-C** within the total of participants

**Independent Samples Test**

		Levene's Test for Equality of Variances		t-test for Equality of Means						
		F	Sig.	t	df	Sig. (2-tailed)	Mean Difference	Std. Error Difference	95% Confidence Interval of the Difference	
									Lower	Upper
LDL	Equal variances assumed	.291	.592	2.049	46	.046	21.96667	10.72233	.38373	43.54960
	Equal variances not assumed			2.049	45.860	.046	21.96667	10.72233	.38195	43.55138

Effect of **Sm** on **LDL-C** within the total of participants

**Independent Samples Test**

		Levene's Test for Equality of Variances		t-test for Equality of Means						
		F	Sig.	t	df	Sig. (2-tailed)	Mean Difference	Std. Error Difference	95% Confidence Interval of the Difference	
									Lower	Upper
LDL	Equal variances assumed	.004	.947	1.911	46	.062	20.84167	10.90583	-1.11063	42.79396
	Equal variances not assumed			1.911	45.941	.062	20.84167	10.90583	-1.11139	42.79472

Effect of **C** on **HDL-C** within the total of participants

**Independent Samples Test**

		Levene's Test for Equality of Variances		t-test for Equality of Means						
		F	Sig.	t	df	Sig. (2-tailed)	Mean Difference	Std. Error Difference	95% Confidence Interval of the Difference	
									Lower	Upper
HDL	Equal variances assumed	1.768	.190	-.450	44	.655	-1.34783	2.99475	-7.38336	4.68770
	Equal variances not assumed			-.450	40.175	.655	-1.34783	2.99475	-7.39963	4.70398

Effect of **SE** on **HDL-C** within the total of participants

**Independent Samples Test**

		Levene's Test for Equality of Variances		t-test for Equality of Means						
		F	Sig.	t	df	Sig. (2-tailed)	Mean Difference	Std. Error Difference	95% Confidence Interval of the Difference	
									Lower	Upper
HDL	Equal variances assumed	.058	.811	-2.898	52	.005	-7.33333	2.53014	-12.41043	-2.25624
	Equal variances not assumed			-2.898	50.962	.006	-7.33333	2.53014	-12.41289	-2.25378

Effect of **Ex** on **HDL-C** within the total of participants

**Independent Samples Test**

		Levene's Test for Equality of Variances		t-test for Equality of Means						
		F	Sig.	t	df	Sig. (2-tailed)	Mean Difference	Std. Error Difference	95% Confidence Interval of the Difference	
									Lower	Upper
HDL	Equal variances assumed	.009	.926	-1.930	48	.059	-4.72000	2.44524	-9.63649	.19649
	Equal variances not assumed			-1.930	47.974	.059	-4.72000	2.44524	-9.63655	.19655

Effect of **Sm** on **HDL-C** within the total of participants

Independent Samples Test

		Levene's Test for Equality of Variances		t-test for Equality of Means						
		F	Sig.	t	df	Sig. (2-tailed)	Mean Difference	Std. Error Difference	95% Confidence Interval of the Difference	
									Lower	Upper
HDL	Equal variances assumed	.073	.788	-1.849	46	.071	-5.45833	2.95190	-11.40019	.48353
	Equal variances not assumed			-1.849	45.392	.071	-5.45833	2.95190	-11.40234	.48567

Effect of **C** on **TC** within dyslipidemic participants

Independent Samples Test

		Levene's Test for Equality of Variances		t-test for Equality of Means						
		F	Sig.	t	df	Sig. (2-tailed)	Mean Difference	Std. Error Difference	95% Confidence Interval of the Difference	
									Lower	Upper
CT_Dyslip	Equal variances assumed	.183	.674	.841	18	.412	6.40000	7.61212	-9.59248	22.39248
	Equal variances not assumed			.841	17.507	.412	6.40000	7.61212	-9.62480	22.42480

Effect of **SE** on **TC** within dyslipidemic participants

Independent Samples Test

		Levene's Test for Equality of Variances		t-test for Equality of Means						
		F	Sig.	t	df	Sig. (2-tailed)	Mean Difference	Std. Error Difference	95% Confidence Interval of the Difference

Figures 1-3  
Overweight

Hypothesis Test Summary

	Null Hypothesis	Test	Sig.	Decision
1	The distribution of Dif_TC is the same across categories of Overweight.	Independent-Samples Kruskal-Wallis Test	.000	Reject the null hypothesis.
2	The distribution of Dif_TG is the same across categories of Overweight.	Independent-Samples Kruskal-Wallis Test	.002	Reject the null hypothesis.
3	The distribution of Dif_LDL is the same across categories of Overweight.	Independent-Samples Kruskal-Wallis Test	.000	Reject the null hypothesis.
4	The distribution of Dif_HDL is the same across categories of Overweight.	Independent-Samples Kruskal-Wallis Test	.016	Reject the null hypothesis.
5	The distribution of Dif_BMI is the same across categories of Overweight.	Independent-Samples Kruskal-Wallis Test	.133	Retain the null hypothesis.

Asymptotic significances are displayed. The significance level is .05.

## Obese

**Hypothesis Test Summary**

	Null Hypothesis	Test	Sig.	Decision
1	The distribution of Dif_TC is the same across categories of Obesity.	Independent-Samples Kruskal-Wallis Test	.000	Reject the null hypothesis.
2	The distribution of Dif_TG is the same across categories of Obesity.	Independent-Samples Kruskal-Wallis Test	.328	Retain the null hypothesis.
3	The distribution of Dif_LDL is the same across categories of Obesity.	Independent-Samples Kruskal-Wallis Test	.000	Reject the null hypothesis.
4	The distribution of Dif_HDL is the same across categories of Obesity.	Independent-Samples Kruskal-Wallis Test	.236	Retain the null hypothesis.
5	The distribution of Dif_BMI is the same across categories of Obesity.	Independent-Samples Kruskal-Wallis Test	.000	Reject the null hypothesis.

Asymptotic significances are displayed. The significance level is .05.

## Dyslipidemic

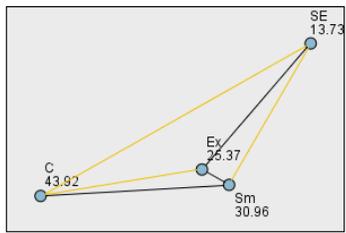

**Hypothesis Test Summary**

	Null Hypothesis	Test	Sig.	Decision
1	The distribution of Dif_CT_Dyslip is the same across categories of Group_TOTAL.	Independent-Samples Kruskal-Wallis Test	.000	Reject the null hypothesis.
1	The distribution of Dif_TG_Dyslip is the same across categories of Group_TOTAL.	Independent-Samples Kruskal-Wallis Test	.003	Reject the null hypothesis.
1	The distribution of Dif_LDL_Dyslip is the same across categories of Group_TOTAL.	Independent-Samples Kruskal-Wallis Test	.000	Reject the null hypothesis.
1	The distribution of Dif_HDL_Dyslip is the same across categories of Group_TOTAL.	Independent-Samples Kruskal-Wallis Test	.037	Reject the null hypothesis.
1	The distribution of Dif_BMI_Dyslip is the same across categories of Group_TOTAL.	Independent-Samples Kruskal-Wallis Test	.000	Reject the null hypothesis.

Asymptotic significances are displayed. The significance level is .05.

## TC. Overweight

Pairwise Comparisons of Overweight

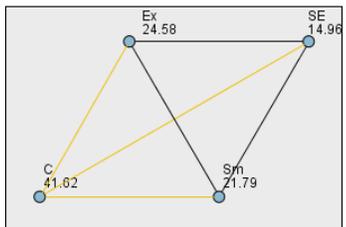

Each node shows the sample average rank of Overweight.

Sample1-Sample2	Test Statistic	Std. Error	Std. Test Statistic	Sig.	Adj.Sig.
SE-Ex	-11.633	5.740	-2.027	.043	.256
SE-Sm	-17.225	6.088	-2.829	.005	.028
SE-C	-30.183	6.088	-4.958	.000	.000
Ex-Sm	-5.592	6.088	-.918	.358	1.000
Ex-C	-18.550	6.088	-3.047	.002	.014
Sm-C	-12.958	6.417	-2.019	.043	.261

Each row tests the null hypothesis that the Sample 1 and Sample 2 distributions are the same. Asymptotic significances (2-sided tests) are displayed. The significance level is .05.

## TC. Obese

Pairwise Comparisons of Obesity

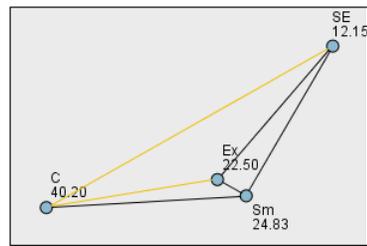

Each node shows the sample average rank of Obesity.

Sample1-Sample2	Test Statistic	Std. Error	Std. Test Statistic	Sig.	Adj.Sig.
SE-Sm	-6.830	5.833	-1.171	.242	1.000
SE-Ex	-9.615	5.715	-1.682	.092	.555
SE-C	-26.663	5.833	-4.571	.000	.000

Ex-C	-17.048	5.833	-2.923	.003	.021

Each row tests the null hypothesis that the Sample 1 and Sample 2 distributions are the same. Asymptotic significances (2-sided tests) are displayed. The significance level is .05.

## TC. Dyslipidemic

Pairwise Comparisons of Group\_TOTAL

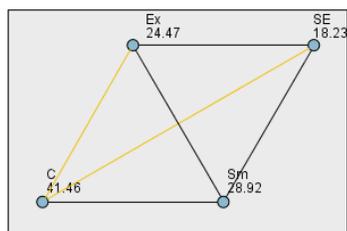

Each node shows the sample average rank of Group\_TOTAL.

Sample1-Sample2	Test Statistic	Std. Error	Std. Test Statistic	Sig.	Adj.Sig.
SE-Ex	-10.346	5.486	-1.886	.059	.356
SE-Sm	-12.679	5.486	-2.311	.021	.125
