

# QUESTIONNAIRE

## Wheat seed-borne diseases survey in Tajikistan

.....  
survey date

.....  
round

.....  
conducted by

### General Information about Farm

Farm name: .....		
Address: .....	.....	.....
	region/location	postal address
Contacts: .....	.....	.....
	tel./fax/mob.	e-mail/other
Representative: .....	.....	.....
	name	contacts: tel./mob. position
Wheat in the farm: .....	.....	.....
	total wheat area (ha)	for seed prod. (ha) varieties

### Field and crop management information

Latitude: N S .....	Longitude: E W .....	Altitude (m): .....
Field: .....	.....	.....
	size (ha)	previous crop variety
Planting: .....	.....	.....
	planting date	method (row/broadcast) seed treatment (dose) seed rate (kg/ha)
Crop type: Food: <input type="checkbox"/> Seed: <input type="checkbox"/> Feed: <input type="checkbox"/> Other: .....		
Management:		
<i>Fertilizer:</i> .....	.....	.....
	type (N, P, K)	rate for each type (kg/ha, pure) time
<i>Pesticide:</i> .....	.....	.....
	type (ins., fung.)	dose (for each, l/ha-pure) time
<i>Weed control:</i> hand weeding / chemical control / other .....		
<i>Irrigation:</i> irrigated / rain fed		
<i>Irrigation time:</i> .....	.....	.....
	irrigation type	dates of 1st, 2nd and following date of last irrigation/rain

### Field survey

Observation: .....	.....	.....
	crop view	growth stage lodging
Weed: .....	.....	.....
	density (high, med., low)	predominant species
Diseases: Loose smut: .....		
Common bunt: .....		
Other diseases: .....		
(name and incidence	.....	.....
(occurrence) level)	.....	.....
Notes: .....		
.....
