## IES-6 Stairs

- |   |  |
|---|--|
| 1. Since the beginning of the emergency, many things have made me think about COVID-19                                    |  |
| 2. Since the beginning of the COVID-19 emergency, I have been thinking about it even without wanting to                   |  |
| 3. Since the beginning of the COVID-19 emergency, I have been feeling nervous and alarmed                                 |  |
| 4. Since the beginning of the COVID-19 emergency, I try not to think about it   |  |
| 5. Since the beginning of the COVID-19 emergency, I realize that I still have many negative emotions without realizing it |  |
| 6. Since the start of the COVID-19 emergency, I have had difficulty concentrating   |  |

## How scared he was from the risk of

- |  |  |
|--|--|
| 1. Getting infected with SARS-CoV-2 / CoViD-19 |  |
| 2. Being quarantined                           |  |
| 3. Aggravate existing diseases                 |  |
| 4. Infecting family members                    |  |
