*Gastroenterology Insights* was launched in 2009 and it has been published over the past eleven years by PAGEPress Publications, with a total of 88 papers released [1]. Dr. Joseph D. Feuerstein from Harvard Medical School has served as the Editor-in-Chief since 2015 and is still currently active in this role. To ensure that we serve all academic communities well, MDPI took over the publication of *Gastroenterology Insights* from PAGEPress and continues to publish the journal since 20 July 2020. We will publish two quarterly issues in 2020, and regularly publish four quarterly issues starting from 2021.

*Gastroenterology Insights* has a great potential to be an influential journal and to serve its scientific communities. We are committed to making the journal a success, by involving more established researchers in the Editorial Board, launching interesting Special Issues, publishing high-quality papers, and getting the journal included in major indexing and abstracting services.

We look forward to publishing your work in *Gastroenterology Insights*.
