# Publisher's Note: Continued Publication of *International Journal of Plant Biology* by MDPI

Enric Sayas 

MDPI Barcelona Office, Avenida Madrid 95, 08028 Barcelona, Spain; enric.sayas@mdpi.com

The *International Journal of Plant Biology* (ISSN: 2037-0164) was launched in 2010 and publishes international and multidisciplinary research in the different subdisciplines of plant biology [1]. The focus of this journal is to provide an open access platform for publication and debate, encompassing all areas which fall within the scope of plant science.

The *International Journal of Plant Biology* was published by PAGEPress and will be published by MDPI as of 24 January 2022 [2].

Dr. Adriano Sofo, from the University of Basilicata (Matera, Italy), has served as Editor-in-Chief of the journal since 2014 and has kindly agreed to continue to serve in this role.

We are delighted to take over the publication of the *International Journal of Plant Biology* and will ensure that the journal keeps providing an open access platform in which the scientific community devoted to the study of plant biology can publish and exchange ideas.

The *International Journal of Plant Biology* complements the MDPI portfolio of journals in this field, especially *Plants* [3].

Starting in 2022, the *International Journal of Plant Biology* will change publication frequency from annual to quarterly.

We look forward to publishing your work in the *International Journal of Plant Biology*!
