

Supplementary Figure S1. In vitro effect of H-002119-00-001 on bacterial colonization

(A) After treatment with 0.1 M H-002119-00-001, the number of bacteria showed over 3.0×10^2 CFU/mL. (B) After treatment with 0.01 M H-002119-00-001, the number of bacteria showed over 3.0×10^2 CFU/mL. (C) After treatment with 0.001 M H-002119-00-001, the number of bacteria showed over 3.0×10^2 CFU/mL.
