The authors wish to make a change to the published paper [1]. In the original manuscript, there is a mistake in the Equation (3). The corrected Equation (3) is presented below.

$$\text{Quality factor (mm H}_2\text{O}^{-1}) = \frac{-\ln(\% \text{ penetration}/100\%)}{\text{pressure drop (mm H}_2\text{O)}} \quad (3)$$

The authors apologize for any inconvenience caused, and this change does not affect the scientific results. The manuscript will be updated, and the original will remain online on the article webpage at <https://www.mdpi.com/2073-4360/11/11/1822>.
