

FARRUKHABAD SUBDIVISION

SHAHDARA SUBDIVISION

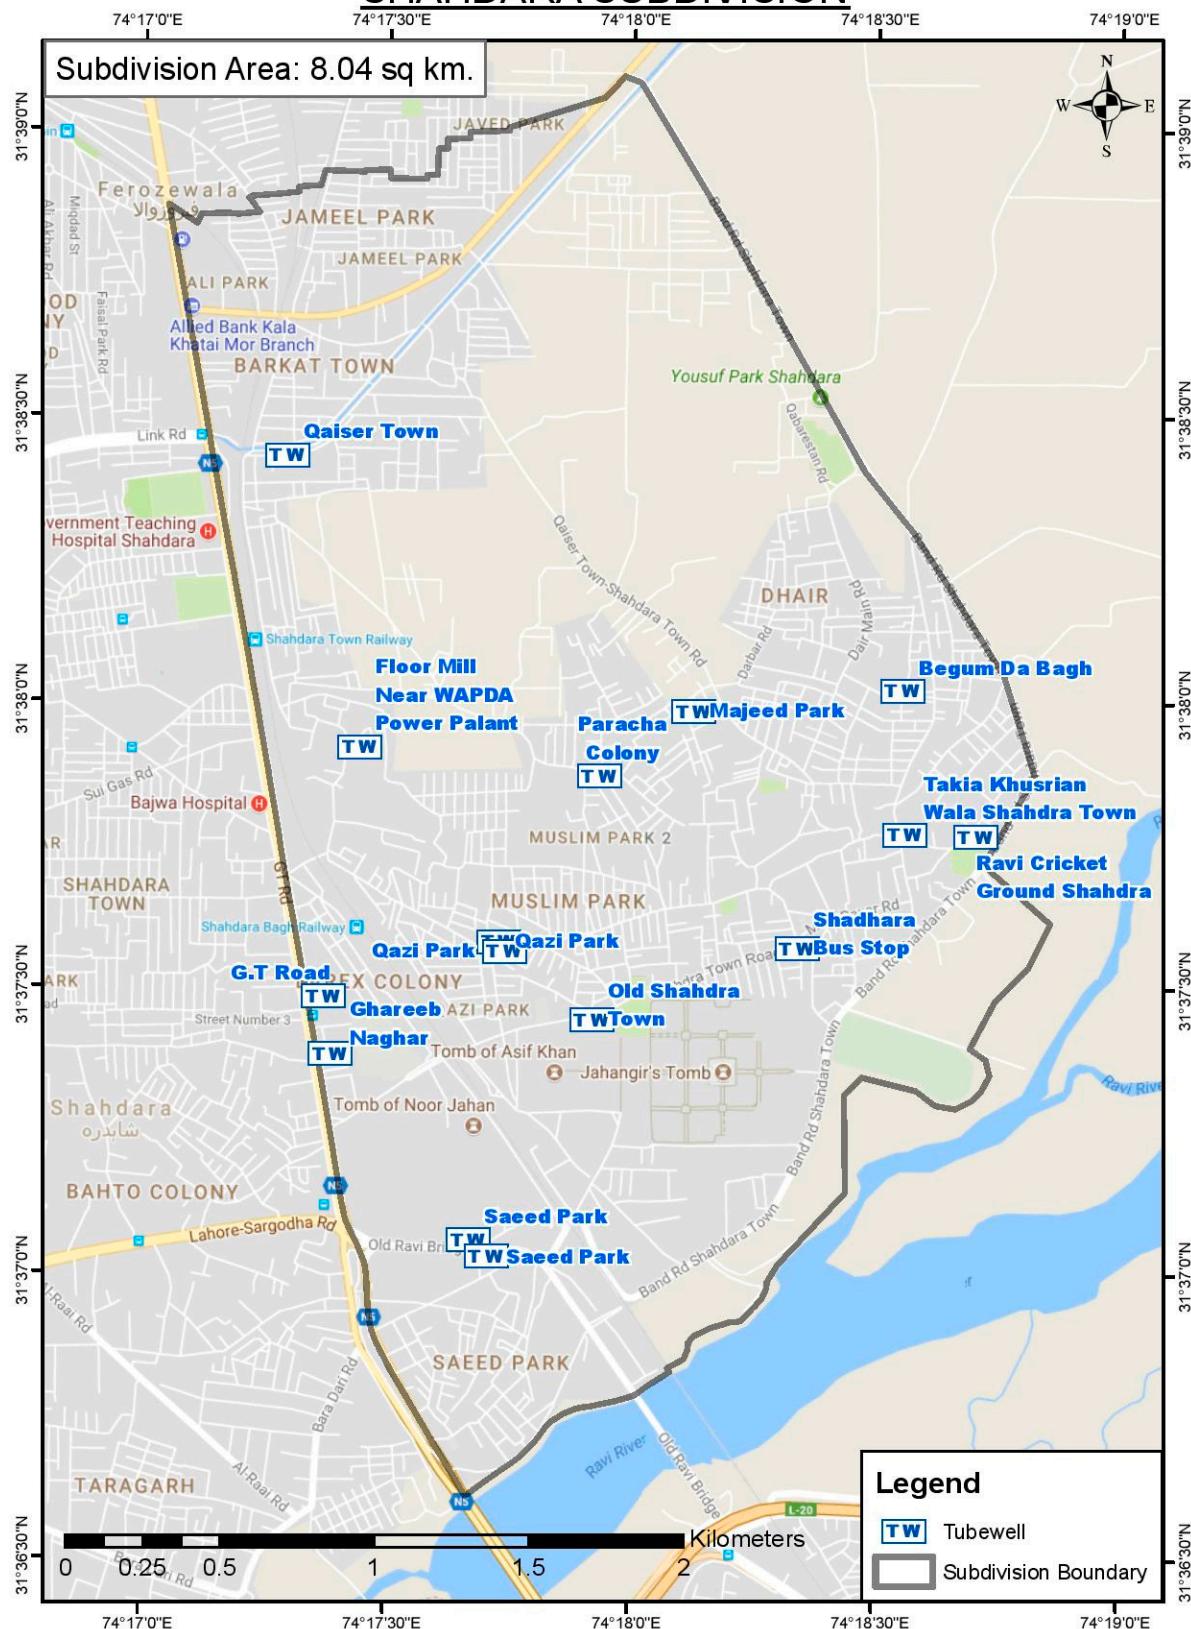

Table-S1: Sampling frequency of selected ground water sources

| Parameter | Sampling frequency at single source point per year | Total Number of sources | Total number of samples for six years from (2012-2017) |
|------------------|---|--------------------------------|---|
| TDS | 4 | 50 | $4*6*50=1200$ |
| EC | 4 | 50 | $4*6*50=1200$ |
| Mg | 4 | 50 | $4*6*50=1200$ |
| Ca | 4 | 50 | $4*6*50=1200$ |
| SO4 | 4 | 50 | $4*6*50=1200$ |
| Cl | 4 | 50 | $4*6*50=1200$ |
| pH | 4 | 50 | $4*6*50=1200$ |

Table-S2: Results for 45 developed models of ANN for study area

| Sr No | Study area | Network type | Training algorithm | Learning rate | Number of neurons | All r Coefficient of Correlation | Coefficient of determination | |
