

## Supplementary Material

**Table S1:** Radiomic features from different categories

Lesion Geometry (GEO)	First-Order Histogram (HIS)	Absolute Gradient (GRA)	Run-Length Matrix (RLM)	Co-Occurrence Matrix (COM)	Autoregressive Model (ARM)	Wavelet Transform (WAV)
<ul style="list-style-type: none"> <li>Total number of geometric parameters: 73</li> </ul>	<ul style="list-style-type: none"> <li>• mean</li> <li>• variance</li> <li>• skewness</li> <li>• kurtosis,</li> <li>• 1-% percentile</li> <li>• 10-% percentile</li> <li>• 50-% percentile</li> <li>• 90-% percentile</li> <li>• 99-% percentile</li> </ul>	<ul style="list-style-type: none"> <li>• mean</li> <li>• variance</li> <li>• skewness</li> <li>• kurtosis</li> <li>• percentage of pixels with nonzero gradient.</li> </ul>	<ul style="list-style-type: none"> <li>• run length nonuniformity</li> <li>• grey level nonuniformity</li> <li>• long run emphasis</li> <li>• short run emphasis</li> <li>• fraction of image in runs</li> </ul>	<ul style="list-style-type: none"> <li>• angular second moment</li> <li>• contrast</li> <li>• correlation</li> <li>• sum of squares</li> <li>• inverse difference moment</li> <li>• sum average</li> <li>• sum variance</li> <li>• sum entropy</li> <li>• entropy</li> <li>• difference variance</li> <li>• difference entropy</li> </ul>	<ul style="list-style-type: none"> <li>• teta 1</li> <li>• teta 2</li> <li>• teta 3</li> <li>• teta 4</li> <li>• sigma</li> </ul>	<ul style="list-style-type: none"> <li>• WAVELET ENERGY</li> </ul>

For further information on the features visit: <http://www.eletel.p.lodz.pl/programy/mazda/download/FeatureList.pdf>
