

Supplementary Table S1: Microbial diversity in each type of sample and potential impact of maternal factors.

Type of samples	Maternal factor	Statistical test; p-value
Child's oral swab	Maternal CRF	Mann-Whitney U test=311.5; p=1.0
Saliva mother	Maternal CRF	Mann-Whitney U test=295.5; p=0.8
Breastmilk	Maternal CRF	Mann-Whitney U test=232.5; p=0.1
Oral swab diversity	Type of delivery	Mann-Whitney U test=368.0; p=0.05
