

Figure S1: Analysis of differentially expressed genes between RCD group and HFD group. (A) Volcano plot shows the fold change of DEGs of RCD vs HFD group. **(B)** KEGG pathway classification of DEGs from RCD vs HFD group.

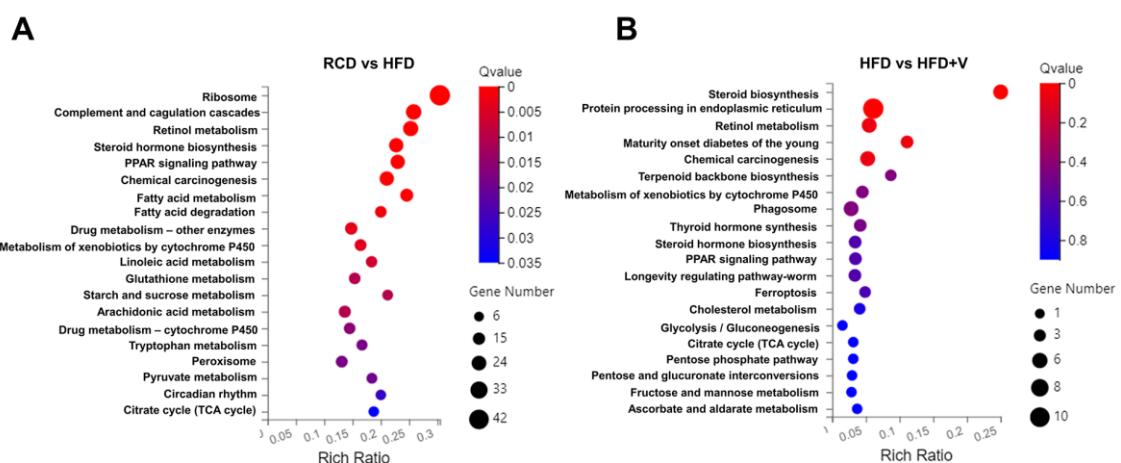

Figure S2. Analysis of KEGG pathways. The advanced bubble chart shows the top 20 enriched KEGG pathways of the DEGs in the RCD vs HFD group (A), and HFD vs HFD+V group (B).
