

Supplementary Materials

Table S1. Gender analysis of particular compartments loss. Statistical analysis of gender dependent compartment loss. Data are expressed as the mean \pm SD, for comparison differences between measurements before the diet and after the diet within groups ($p(1vs2)$) and between groups (# p), a t -test was used. .

Parameter	X	Men (n = 16)	Women (n = 37)	# p
Height (cm)		176.3 \pm 6.0	163.5 \pm 5.9	<0.001
