¹ Quality assessment of cross-sectional included studies performed through Newcastle - Ottawa Quality Assessment Scale adapted for cross sectional studies (Modesti 2016)

Legend: NA: Not applicable for evaluating the quality in relation to the outcomes of our study

² Guinchat et al. (2015) and Volkmar et al. (1991) are case-series studies, without control groups; Raja et al. 2010 is a case-series study, with a control non-selected group.
