

Supplementary Figure 1: Effects of Fibroblast Growth Factor-2 (FGF-2) and anosmin-1 on Oligodendrocyte Precursor Cells (OPC) proliferation. (a) Quantification of the proliferating oligodendrocytes in the presence of FGF2 or anosmin-1 at the distinct ages studied. (b) Graph showing how SU5402 influences the effect of FGF2 on the proliferation of OPCs. The results were analyzed using a Student's *t*-test: * $P < 0.05$, ** $P < 0.01$, and *** $P < 0.001$.
