

Fig. S1

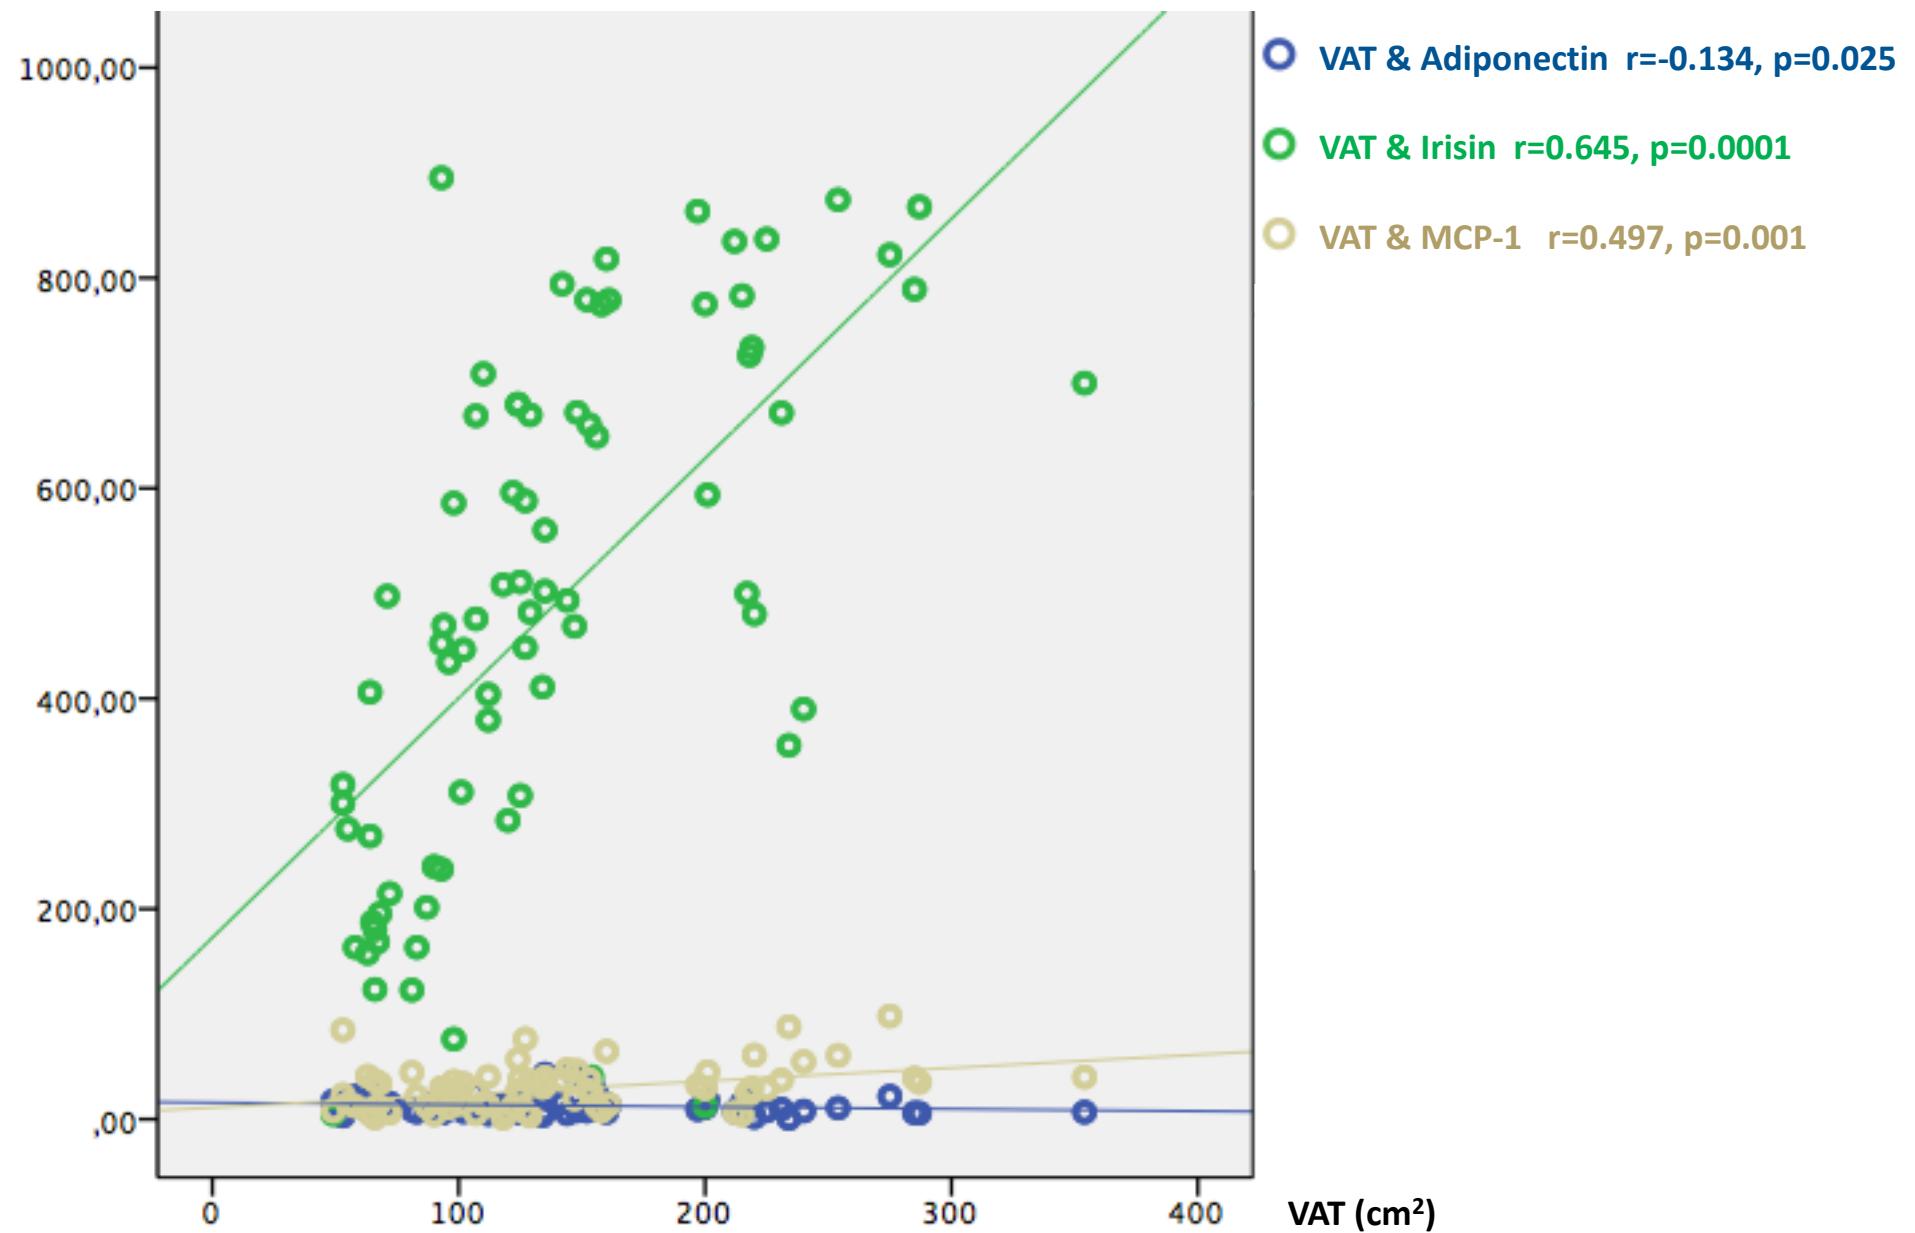

Figure S1. Correlation between adiponectin, irisin, MCP-1 levels and VAT.

MCP-1: monocyte chemoattractant protein-1 , VAT: visceral adipose tissue.

Fig. S2

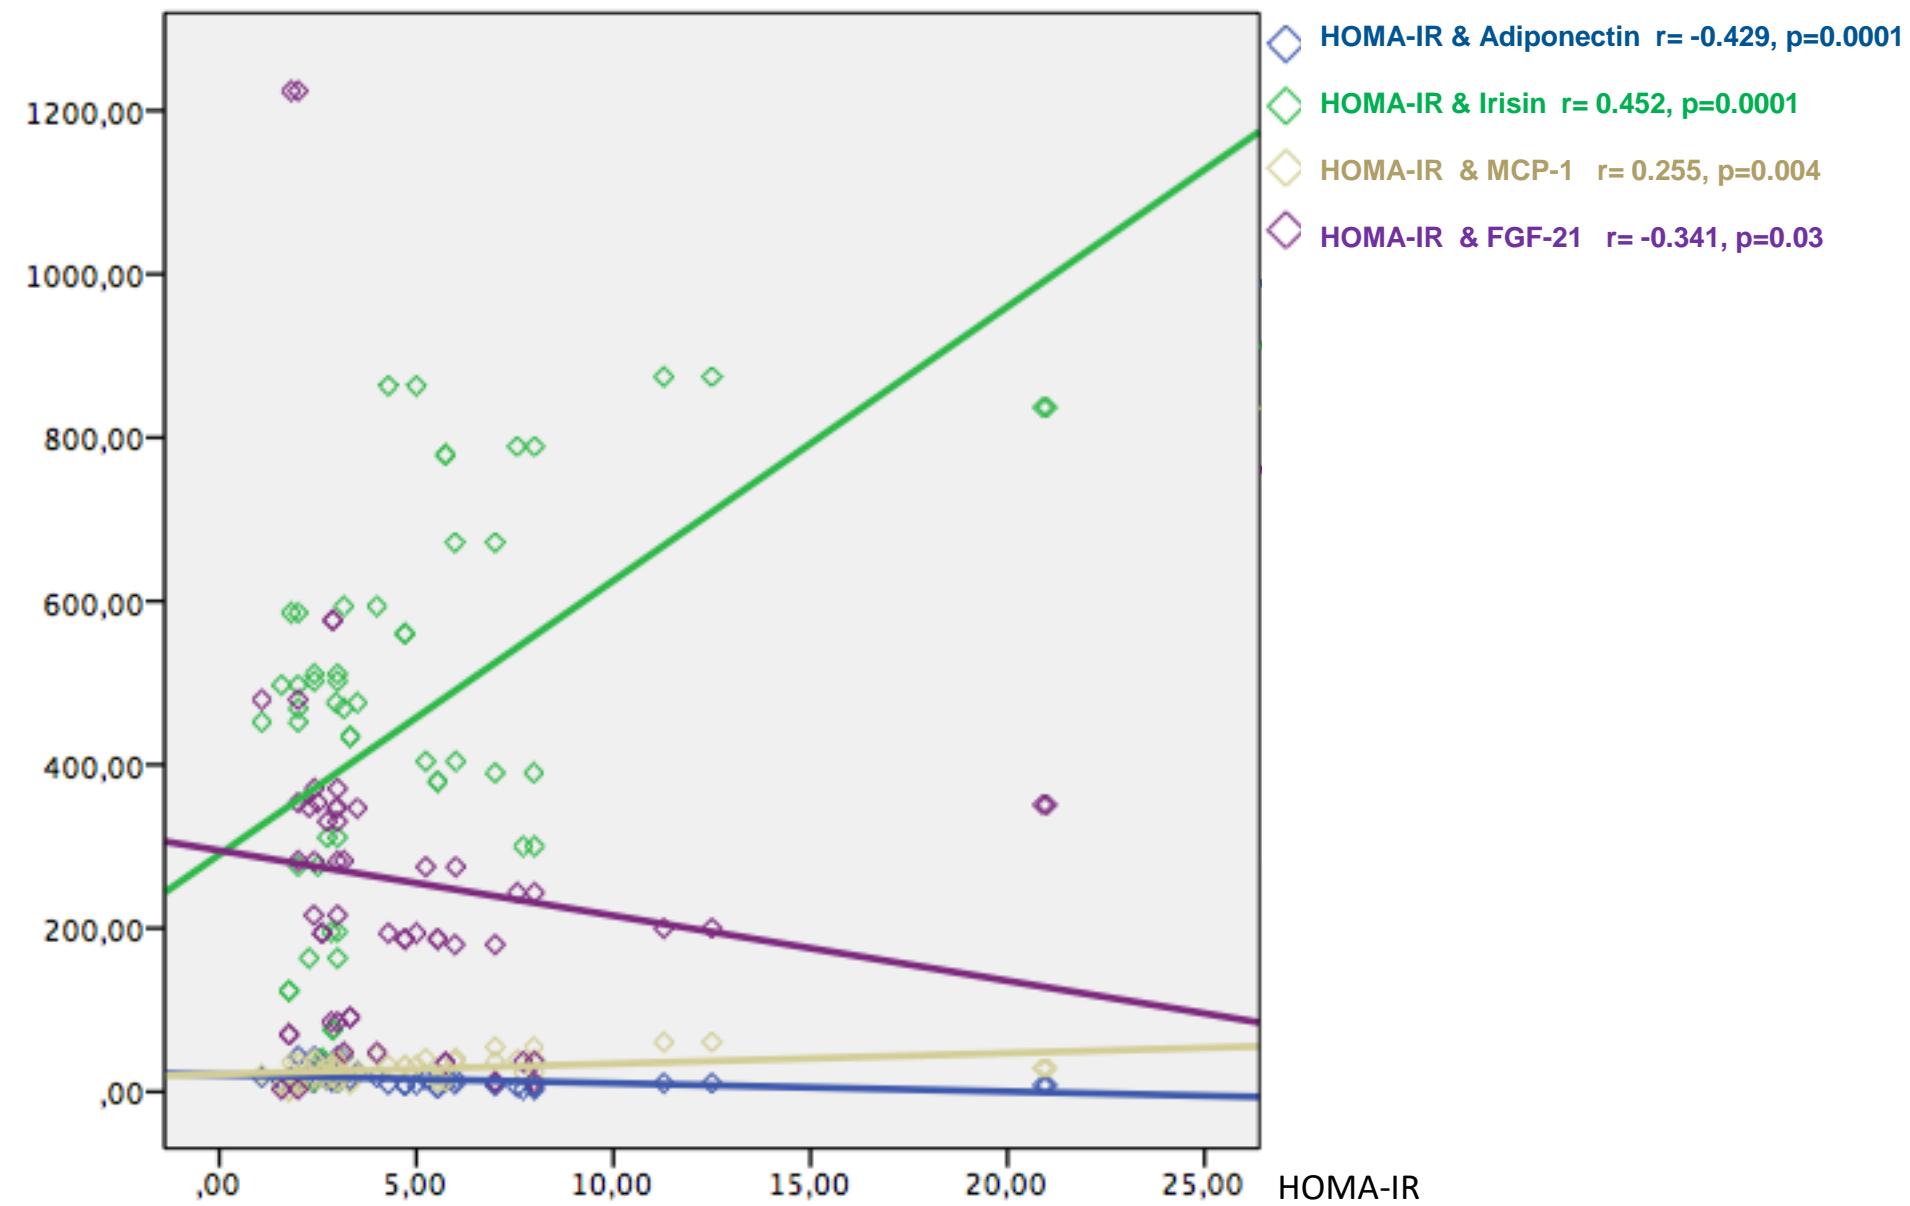

Figure S2. Correlation between adiponectin, irisin, MCP-1, FGF-21 levels and HOMA-IR.

MCP-1: monocyte chemoattractant protein-1, , FGF-21: fibroblast growth factor-21.

Fig. S3

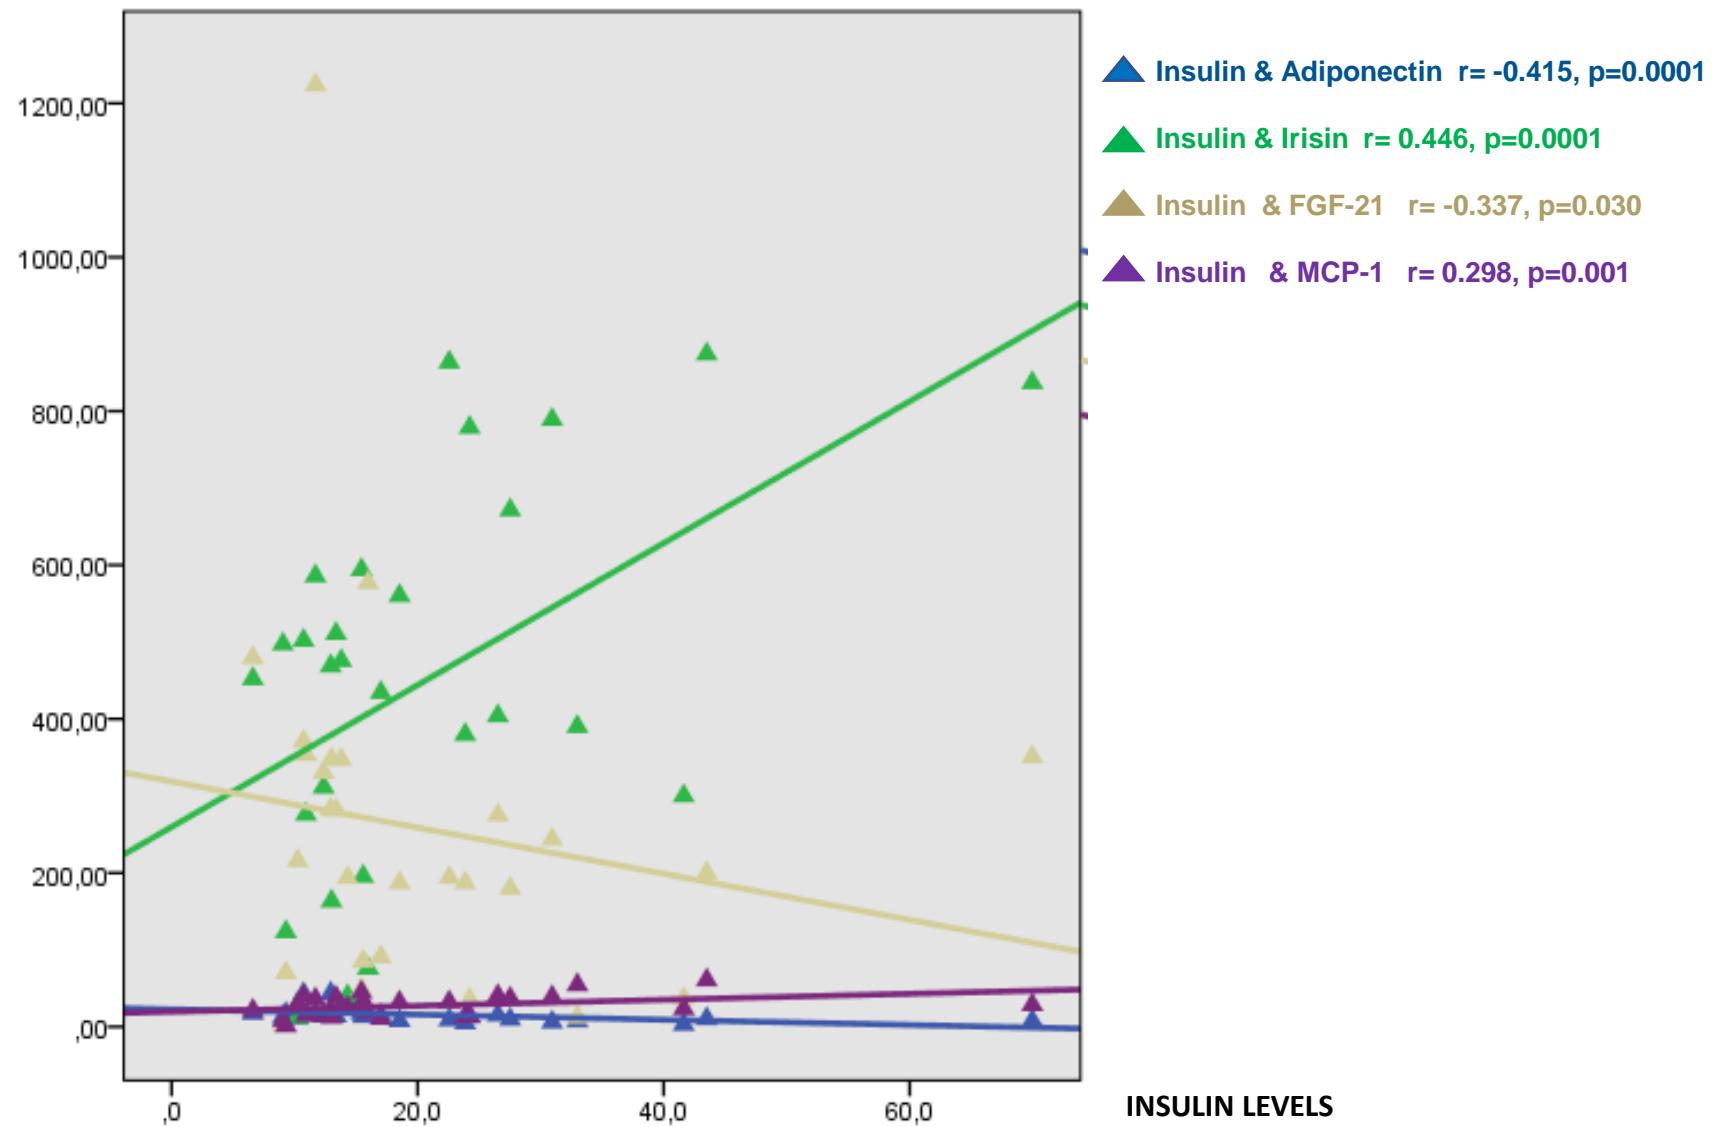

Figure S3. Correlation between adiponectin, irisin, MCP-1, FGF-21 and insulin levels.

MCP-1: monocyte chemoattractant protein-1, FGF-21: fibroblast growth factor-21.

Fig. S4

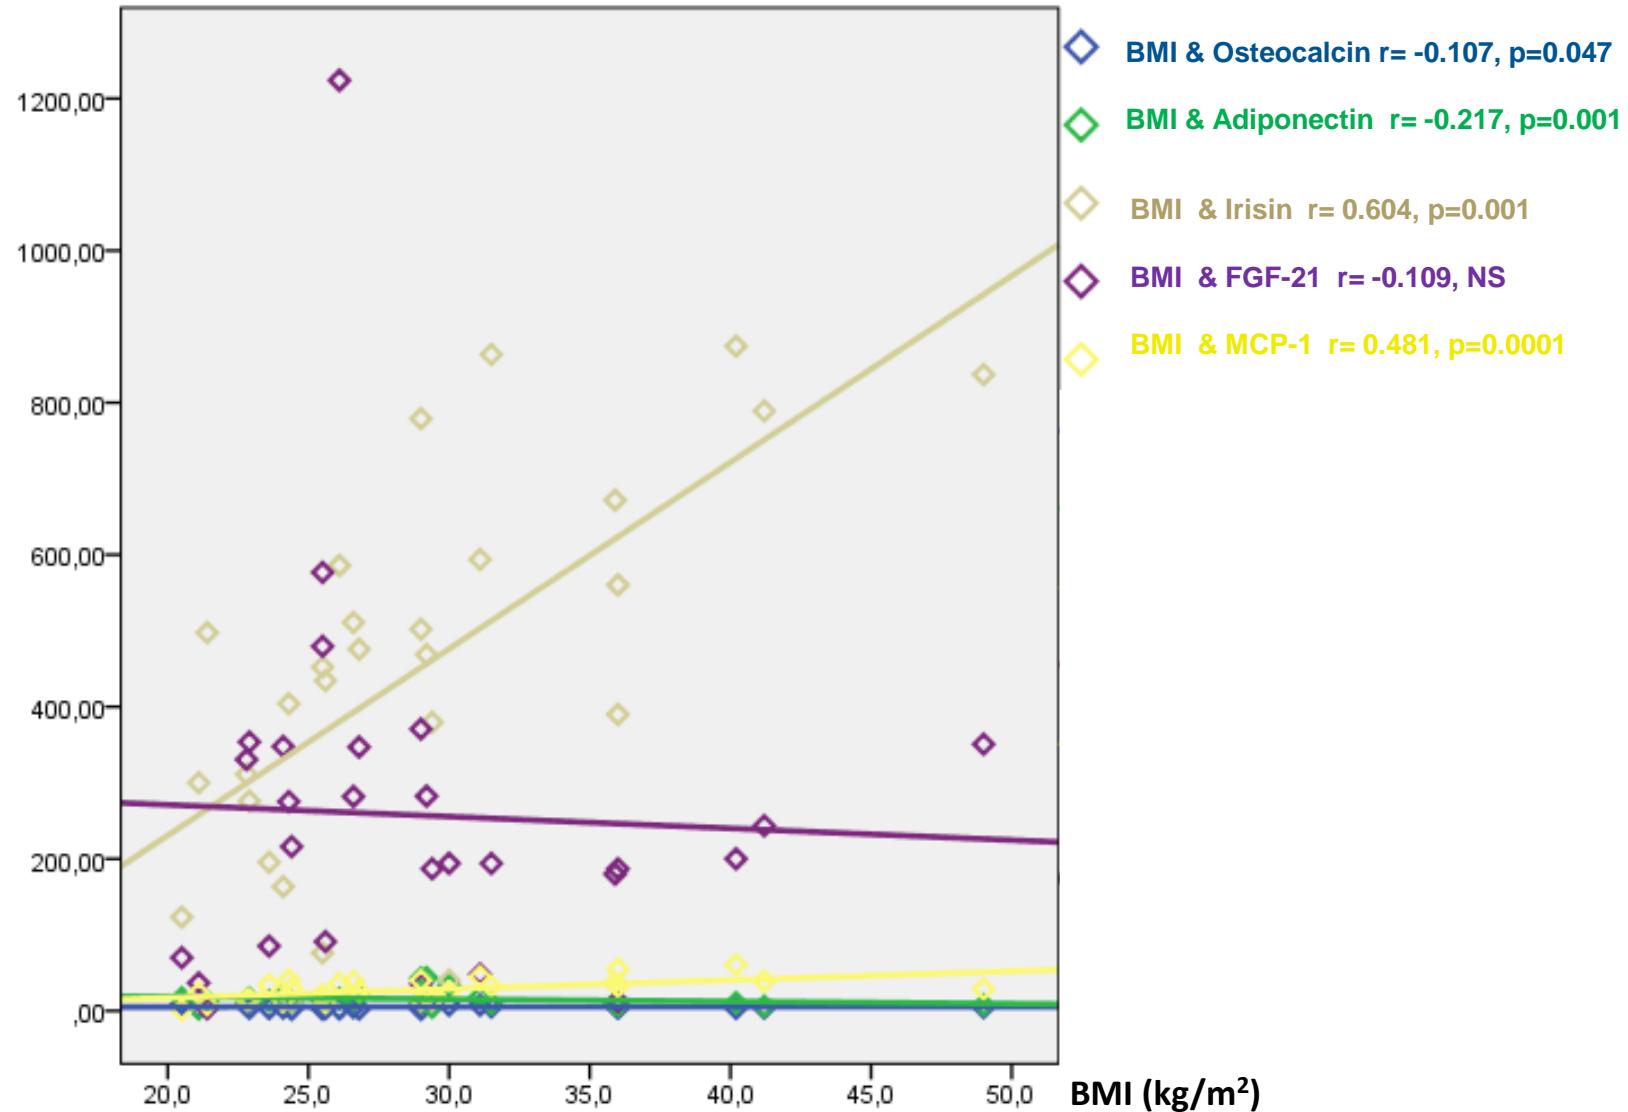

Figure S4. Correlation between osteocalcin, adiponectin, irisin, FGF-21, MCP-1 levels and BMI.

MCP-1: monocyte chemoattractant protein-1, FGF-21: fibroblast growth factor-21, BMI: body mass index.
