

Table S1. Radiocarbon dating results for samples collected in the upper parts of trough valleys within the Russian Altai and published after (Agatova et al., 2012).

N	Lab code	Location				N° E°	Altitude m a.s.l.	Sample type	Tree specie	¹⁴ C Age	Calibrated age (2σ)	Interpretation	Reference
		Range	Range slope	Exposition	Loc.								
1	LU-6452	Mongun-Taiga	NE	NE	East Mugur valley		2350	Tree fragment		3370±70	3640±185	Warm and humid climate	Ganushkin et al., 2017
2	LU-6949	Mongun-Taiga	NE	NE	East Mugur valley		2640	Tree fragment		8140±80	9090±310	Warm and humid climate	Ganushkin et al., 2016
3	SOAN-8116	Mongun-Taiga	NE	E	East Mugur valley, floodplain in front of Aktru moraine of the East Mugur glacier	N49°17'24" E89°10'55"	2642	Base part of tree trunk with bark fragments <i>in situ</i>	Pinus Sibirica	8900±95	9960±270	Trees grow within modern glacial zone	Nazarov, Myglan 2012
4	SOAN-8117	Mongun-Taiga	NE	E	East Mugur valley, floodplain downstream the Aktru moraine of the East Mugur glacier	N49°17'54" E89°11'29"	2575	Base part of tree trunk with bark fragments <i>in situ</i>	Pinus Sibirica	5285±55	6065±140	Trees grow within modern glacial zone	Nazarov, Myglan 2012
5	IGAN 4089	Chikhach ev	S	W	Upper Boguty valley	N49°45'40" E89°27'57"	2472	Fragment of charcoal	Larix Sibirica	7640±100	8415±210	Climate is favorable for growing tree vegetation	Nepop et al., 2020
6	SOAN 2122	Chikhach ev	S	W	Upper Boguty valley		2480	Fragment of charcoal		8510±40	9505±35	Climate is favorable for growing tree vegetation	Rusanov and Orlova, 2013
7	SOAN 2288	Chikhach ev	S	W	Upper Boguty valley		2480	Fragment of charcoal		8730±90	9840±305	Climate is favorable for growing tree vegetation	Rusanov and Orlova, 2013
8	SOAN 2289	Chikhach ev	S	W	Upper Boguty valley		2480	Fragment of charcoal		8330±95	9280±240	Climate is favorable for growing tree vegetation	Rusanov and Orlova, 2013
9	SOAN 2290	Chikhach ev	S	W	Upper Boguty valley		2480	Fragment of charcoal		8890±70	9970±235	Climate is favorable for growing tree vegetation	Rusanov and Orlova, 2013

10	SOAN 8674	Chikhach ev	S	W	Upper Boguty valley	N49°45'40" E89°27'57"	2472	Fragment of charcoal	Larix Sibirica	7780±75	8630±225	Climate is favorable for growing tree vegetation	Nepop et al., 2020
11	SOAN 9366-2	Chikhach ev	S	W	Upper Boguty valley	N49°45'40" E89°27'57"	2472	Fragment of charcoal	Larix Sibirica	7470±150	8265±280	Climate is favorable for growing tree vegetation	Nepop et al., 2020
12	IGAN 3694	South-Chuya	N	E	Akkol valley, forefield of Sofiisky glacier	N49°48'29" E87°49'20"	2476	Tree fragment washed out from the glacier	Pinus Sibirica	4050±80	4590±235	Trees grow within modern glacial zone	Nazarov, Myglan 2012
13	IGAN 3695	South-Chuya	N	E	Akkol valley, forefield of Sofiisky glacier	N49°48'29" E87°49'18"	2466	Tree fragment washed out from the glacier	Pinus Sibirica	3550±110	3860±290	Trees grow within modern glacial zone	Nazarov, Myglan 2012
14	IGAN 3882	South-Chuya	N	E	Akkol valley, forefield of Sofiisky glacier	N49°48'40" E7°50'13"	2458	Tree fragment washed out from the glacier	Pinus Sibirica	3040±70	3200±190	Trees grow within modern glacial zone	Nazarov, Myglan 2012
15	IGAN 3887	South-Chuya	N	E	Akkol valley, forefield of Sofiisky glacier	N49°48'29" E87°49'20"	2476	Tree fragment washed out from the glacier	Pinus Sibirica	3020±70	3190±185	Trees grow within modern glacial zone	Nazarov, Myglan 2012
16	SOAN 6915	South-Chuya	N	E	Akkol valley, forefield of Sofiisky glacier	N49°49'33" E87°49'20"	2451	Tree fragment washed out from the glacier	Pinus Sibirica	3525±70	3800±185	Trees grow within modern glacial zone	Nazarov, Myglan 2012
17	SOAN 6916	South-Chuya	N	E	Akkol valley, forefield of Sofiisky glacier	N49°48'28" E87°49'11"	2459	Tree fragment washed out from the glacier	Pinus Sibirica	3365±95	3615±220	Trees grow within modern glacial zone	Nazarov, Myglan 2012
18	SOAN 7383	South-Chuya	N	E	Akkol valley, forefield of Sofiisky glacier	N49°48'28" E87°49'13"	2480	Tree fragment washed out from the glacier	Pinus Sibirica	4270±110	4865±410	Trees grow within modern glacial zone	Nazarov, Myglan 2012

19	IGAN 3875	North-Chuya	NE	E	Maashey valley, forefield of Maashey glacier	N50°07'46" E87°35'32"	2157	Tree fragment washed out from the glacier	Pinus Sibirica	4870±70	5590±255	Trees grow within modern glacial zone	Nazarov, Myglan 2012
20	IGAN 3880	North-Chuya	NE	E	Maashey valley, forefield of Maashey glacier	N50°06'29" E87°36'46"	2174	Tree fragment washed out from the glacier	Pinus Sibirica	4540±80	5175±285	Trees grow within modern glacial zone	Nazarov, Myglan 2012
21	SOAN-6467	North-Chuya	NE	E	Maashey valley, forefield of Maashey glacier	N50°06'32" E87°35'45"	2176	Tree fragment washed out from the glacier	Pinus Sibirica	5230±55	6045±140	Trees grow within modern glacial zone	Nazarov, Myglan 2012
22	SOAN-6468	North-Chuya	NE	E	Maashey valley, forefield of Maashey glacier	N50°06'44" E87°35'37"	2158	Tree fragment washed out from the glacier	Pinus Sibirica	4890±50	5610±125	Trees grow within modern glacial zone	Nazarov, Myglan 2012
23	SOAN-7376	North-Chuya	NE	E	Maashey valley, forefield of Maashey glacier	N50°07'46" E87°35'33"	2145	Tree fragment washed out from the glacier	Pinus Sibirica	4985±95	5705±215	Trees grow within modern glacial zone	Nazarov, Myglan 2012
24	SOAN-7377	North-Chuya	NE	E	Maashey valley, forefield of Maashey glacier	N50°06'40" E87°35'42"	2158	Tree fragment washed out from the glacier	Pinus Sibirica	4680±90	5330±270	Trees grow within modern glacial zone	Nazarov, Myglan 2012
25	SOAN-7378	North-Chuya	NE	E	Maashey valley, forefield of Maashey glacier	N50°06'34" E87°35'46"	2173	Tree fragment washed out from the glacier	Pinus Sibirica	4710±100	5360±295	Trees grow within modern glacial zone	Nazarov, Myglan 2012
26	IGAN 3876	Katun	N	E	Mensu valley, forefield of Mensu glacier	N49°51'58" E86°43'11"	1993	Tree fragment washed out from the glacier	Pinus Sibirica	2540±70	2570±190	Trees grow within modern glacial zone	Nazarov, Myglan 2012
27	IGAN 3877	Katun	N	E	Mensu valley, forefield of Mensu glacier	N49°51'22" E86°42'27"	2147	Tree fragment washed out	Pinus Sibirica	4520±60	5205±230	Trees grow within modern glacial zone	Nazarov, Myglan 2012

								from the glacier					
28	IGAN 3883	Katun	N	E	Mensu valley, forefield of Mensu glacier	N49°48'28" E86°49'13"	1993	Tree fragment washed out from the glacier	Pinus Sibirica	1440±70	1395±130	Trees grow within modern glacial zone	Nazarov, Myglan 2012
29	IGAN 3884	Katun	N	E	Mensu valley, forefield of Mensu glacier	N49°51'58" E86°43'11"	1993	Tree fragment washed out from the glacier	Pinus Sibirica	2310±70	2410±280	Trees grow within modern glacial zone	Nazarov, Myglan 2012
