

# Standards: A Scientific Journal of Standardization

Shu-Kun Lin 

MDPI, St. Alban-Anlage 66, CH-4052 Basel, Switzerland; lin@mdpi.com

We first planned to launch the journal *Standards* in 2012 and obtained ISSN 2305-6703 for *Standards* (Basel). After a very lengthy preparation, we now formally declare the start of this journal.

There are at least three scientific journals on standardization, assessment, or verification [1–3]. The *Journal of Research of the National Institute of Standards and Technology* [3] accepts contributions from NIST staff only and publishes peer-reviewed research articles, in addition to dataset and software articles, tutorials, and tech transfer briefs [3].

*Standards* (ISSN 2305-6703) will be an international scientific open access journal on standardization, inspection, verification, certification, testing, quality control, rating, and all other related topics. It will cover all scientific, engineering, and technology fields.

As with the running of other MDPI journals, we will maintain a fast and rigorous peer review process [4] for this new journal. We hope that you will enjoy publishing with us.
