

Supplementary Materials – SM8

Particle Size Distributions of the Minimum Feret Diameter, the (Maximum) Feret diameter, the Equivalent Circular Diameter and the Aspect Ratio of all tested Products

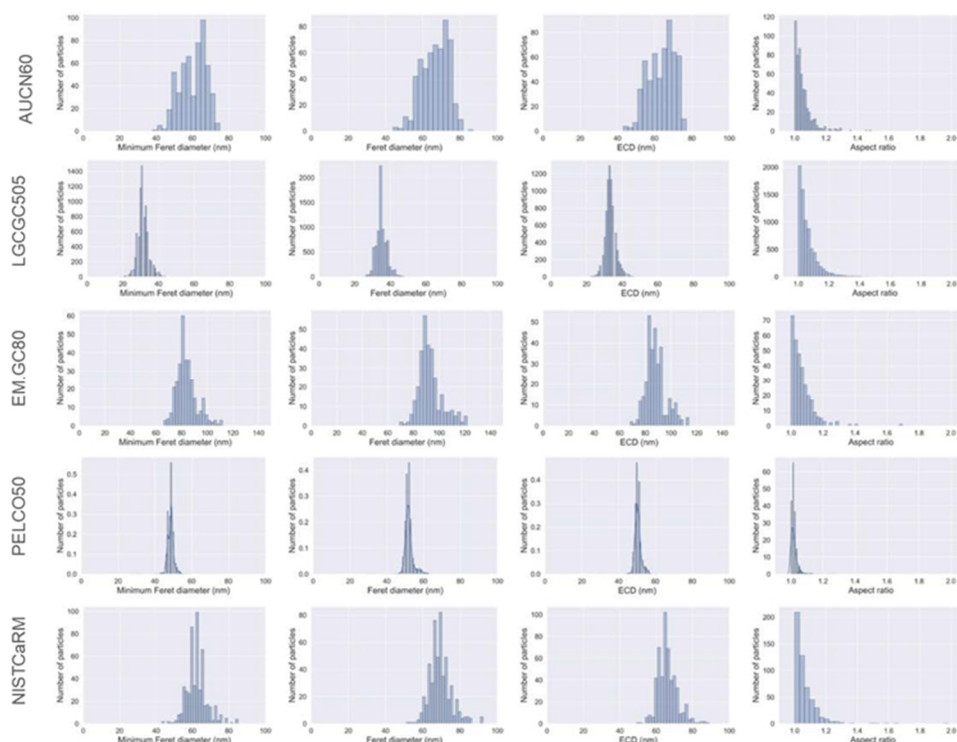

Figure S8a. Particle size distributions of the minimum Feret diameter, the (maximum) Feret diameter, the equivalent circular diameter and the aspect ratio of all tested products except test material N8151035

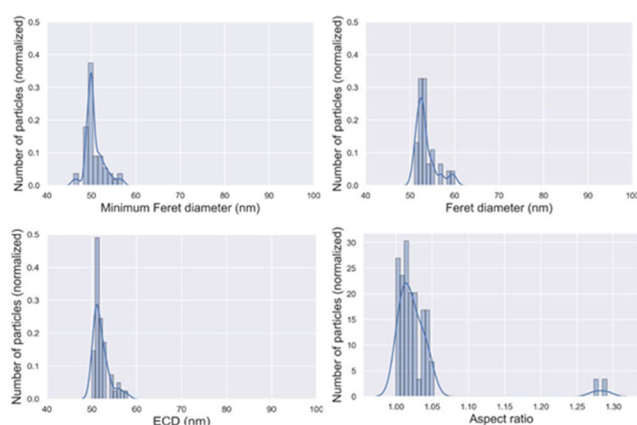

Figure S8b. Particle size distributions of the minimum Feret diameter, the (maximum) Feret diameter, the equivalent circular diameter and the aspect ratio of test material N8151035
