**Table S1.** Search strategies

We searched Embase, PubMed, and the Cochrane Library using a combination of MeSH and free text. Besides, we chose the title/abstract to limit the scope. The search terms include: “diarrhea”, “probiotic”, “children”, and “randomized controlled trial”. In order to include relevant literatures that meet the inclusion criteria as much as possible, we did not add “randomized controlled trial” to search in the Cochrane Library.

Search terms related to diarrhea	Diarrhea; diarrheas; diarrheae; diarrheas; acute diarrhea; diarrh*; gastroenteritis; gastroenteritides; acute gastroenteritis
Search terms related to probiotic	Probiotic; probiotics; probiotic*; prebiotics; prebiotic; prebiotic*; <i>bifidobacterial</i> ; <i>bifidobacterium</i> ; <i>lactobacillaceae</i> ; <i>lactobacilli</i> ; <i>lactobacillus</i> ; <i>saccharomyces</i> ; <i>saccharomyces</i> ; <i>saccharomyc</i> *; <i>saccharomyces boulardii</i> ; <i>lactobacillus</i> ; <i>enterococcus</i> ; <i>escherichia coli</i> ; <i>streptococcus</i> ; <i>lactococcus</i> ; <i>bacillus</i> ; <i>lactobacilli</i> ; <i>lactobacillus rhamnosus GG</i> ; <i>lactobacillus reuteri</i> ; <i>lactobacillus sporogenes</i> ; <i>bifidobacterium longum</i> ; <i>bifidobacterium breve</i> ; <i>bifidobacterium bifidum</i> ; <i>bifidobacterium lactis</i> ; <i>bacillus</i> ; <i>bacillus clausii</i> ; <i>lactobacill</i> *; <i>streptococcus thermophilus</i> ; <i>streptococc</i> *; <i>lactococc</i> *; <i>bacillus subtilis</i> ; <i>enterococcus</i> ; <i>enterococcus faec</i> *; <i>leuconostoc</i> ; <i>pediococc</i> *; <i>bulgarian bacillus</i> ; <i>bacillus laterosporus</i> ; <i>pediococcus acidilactici</i> ; <i>lactis</i>
Search terms related to children	Children; child; child*; kids; kid; neonat; neonat*; baby; babies; pediatric; paediatric; infant; infants; toddler*; toddler; toddlers; adolescent; adolescents; adolescence; adolescen*; newborns; adolescen*; teenag*; youth*; young; preschooler; preschoolers; juvenile; juvenile*; pubescent; youth; teen; teens; teenage; teen-age; teenaged; teen-aged; teenager; teenagers; teen-ager; teen-agers; youngster; youngsters; minor; minors; infan*; newborn*; new-born*; infant, newborn; infants, newborn; newborn infant; newborn infants; newborns; newborn; neonate; neonates; infantile
Search terms related to randomized controlled trial	Randomized; random; randomly; random*; randomized controlled trial; clinical trials, randomized; trials, randomized clinical; controlled clinical trial; placebo; placebo*; trial; groupscrossover procedure; double-blind procedure; single-blind procedure; groups; assign*; allocat*; single blind; double blind; triple blind

**Table S2.** Characteristics of included studies

Study	Study Site	Intervention	N	Duration of hospitalization(day)	Duration of Diarrhea(day)	Duration of Fever(day)	Duration of Vomiting(day)	Day 2 Stool Frequency	Diarrhea lasting $\geq 2$ days(N)
