Medicinal and Aromatic Plants in Agricultural Research When Considering Criteria of Multifunctionality and Sustainability

Guest Editors:

Dr. Mario Licata

Dr. Antonella Maria Maggio

Dr. Salvatore La Bella

Dr. Teresa Tuttolomondo

Deadline for manuscript submissions:

closed (10 December 2021)

Message from the Guest Editors

This Special Issue of Agriculture on "Medicinal and Aromatic Plants in Agricultural Research when Considering Multifunctionality and Sustainability Criteria" aims to illustrate the role of MAPs in agriculture under low-impact farming practices and the benefits they can generate in terms of functional products. This Special Issue accepts contributions that cover all research aspects related to MAPs, and a number of scientific macro-areas can also be included, such as agronomy, chemistry and pharmacy, ethnobotany and ethnopharmacology, food and nutrition, and ecology.

Key topics in this Special Issue include but are not limited to the following:

- Sustainable agricultural practices of MAPs;
- Breeding and germplasm preservation of MAPs;
- Biodiversity of MAPs;
- Conservation of cultivated and wild MAPs;
- Ethnobotany and ethnopharmacology;
- Phytotherapy, phytochemistry, and phytopharmacology;
- Essential oils and secondary metabolites;
- Functional foods and MAPs;
- MAPs and degraded and marginal land recovery;
- Global marketing of MAPs;
- Legislation of MAPs.

Message from the Editor-in-Chief

Agriculture (ISSN 2077-0472) is an international, crossdisciplinary and scholarly open access journal on the science and technology of crop and animal production, and management of the natural resource base for agricultural production. Agriculture is published in an open access format – research articles, reviews and other contents are released on the internet immediately after acceptance. The scientific community and the public have unlimited and free access to the content as soon as it is published.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, RePEc, and other databases.

Journal Rank: JCR - Q1 (Agronomy) / CiteScore - Q2 (Plant Science)
