Algorithms for Large-Scale Data Integration

Guest Editor:

Dr. Haiying Wang
School of Computing,
Jordanstown campus, Ulster
University, Room 16E15, Shore
Road, Newtownabbey, Co.,
Antrim BT37 0QB, UK

Deadline for manuscript
submissions:
closed (26 September 2021)

Message from the Guest Editor

We invite you to submit high-quality papers to this Special Issue on "Algorithms for Large-scale Data Integration", with subjects ranging from theortical models to emerging applications. Possible topics of interest include but are not limited to the following:

- New algorithms for data integration;
- Machine learning for scalable data analysis;
- Advanced data cleaning techniques;
- Semantic data intgration models;
- Distributed integration platforms;
- Large-scale intgrative analysis.

Special Issue

Editor-in-Chief

Prof. Dr. Frank Werner
Faculty of Mathematics, Otto-von-Guericke-University, P.O. Box 4120, D-39016 Magdeburg, Germany

Message from the Editor-in-Chief

Algorithms are the very core of Computer Science. The whole area has been considered from quite different perspectives, having led to the development of many sub-communities: Complexity theory (limitations), approximation or parameterized algorithms (types of problems), geometric algorithms (subject area), metaheuristics, algorithm engineering, medical imaging (applications), indicates the range of perspectives. Our journal welcomes submissions written from any of these perspectives, so that it may become a forum for exchange of ideas between the corresponding scientific subcommunities.

Author Benefits

Open Access : free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, ESCI (Web of Science), Ei Compendex, and other databases.
Journal Rank: CiteScore - Q2 (*Numerical Analysis*)
