Deadline for manuscript
submissions:
31 July 2024

Message from the Guest Editor

Dear Colleagues,

Nowadays, animal products are required to address many challenges: satisfying the global demand for animal protein, ensuring food security for the world population as well as contributing and maintaining to human health and animal welfare, and safeguarding the environment.

We are pleased to invite you to submit papers that address the use of feed additives, byproducts, or nutritional strategies for improving the quality of animal products and the environmental impact of animal productions. In this Special Issue, original research articles and reviews are welcome. Research areas may include (but are not limited to) the following: effect of feed, additives/supplements, natural extract, enzymes, essential oils, plant metabolites, amino acids, vitamins, yeast, probiotics, macroalgae and microalgae, and byproducts on the quality and functionality of animal products (milk and meat), as well as on the environmental impact of animal productions.

Message from the Editor-in-Chief

Animals is an on-line open access journal that was first published in 2011. *Animals* adheres to rigorous peerreview and editorial processes and publishes only high quality manuscripts that address important issues in the many varied disciplines that involve animals, with a focus on animal science, animal welfare and animal ethics. *Animals* is covered in the Science Citation Index Expanded (SCIE) in Web of Science, with the latest Impact Factor: 3.0 (2022, ranks 12 /62 (Q1) in ‘Agriculture, Dairy & Animal Science’; 13/143 (Q1) in ‘Veterinary Sciences’), 5-Year Impact Factor: 3.2.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, Animal Science Database, CAB Abstracts, and other databases.

Journal Rank: JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary)
