Deadline for manuscript
submissions:

closed (20 May 2022)

Message from the Guest Editor

Dear Colleagues,

We are kindly inviting you to submit your recent research work to a forthcoming Special Issue on “Nanostructured and Functionalized Materials: Characterization and Applications”.

This Special Issue will cover recent research results in functionalized materials, including a wide range of length scales, from nano level to macroscopic. Research works providing results on nanostructured materials synthesis, processing and manipulation, or macroscopic fabrication of bulk materials, surfaces, and nanocomposites, are expected and welcome. Moreover, in terms of applications, we could consider (but are not limited to): biomedical applications, mechanical and tribological applications, optical and decorative applications, energy applications, and so on.

Prof. Dr. Daniel Munteanu

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Engineering, Multidisciplinary*) / CiteScore - Q1 (*General Engineering*)
