Italy

Deadline for manuscript
submissions:

closed (31 December 2020)

Message from the Guest Editors

Dear Colleagues,

In this Special Issue, we invite submissions exploring bioactive food proteins, with particular emphasis on the bioactive hydrolysates and peptides derived from food proteins. Possible topics range from structural and functional characterization of bioactive peptides to determination of their biological properties on human health. Considerations about the stability, bioavailability, and techno-functional properties of such components as well as designing and characterization of plant and animal functional foods are also welcome.

Thank you for contributing to this Special Issue.

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Engineering, Multidisciplinary*) / CiteScore - Q1 (*General Engineering*)
