Message from the Guest Editors

Dear Colleagues,

This Special Issue on “Implant Dentistry” will include all outstanding sciences in implant dentistry. This Special Issue will present recent studies, research, and technologies in the field of implant dentistry. Interdisciplinary studies that include different types of implants, including dental implant, orthodontic implant, and any other implants applied in oral surgery are welcome. Different fields in implant materials, implant design, surface treatment, medical images, coatings, 3d-printing, CAD/CAM, and even clinical surgical methods related to implant dentistry are also welcome. The Special Issue will provide a space for different scholars, including physicians and engineers, to communicate in the field of implant dentistry and an environment to develop next-generation materials, design, surface treatment, coatings, surgical methods, etc. in the field of implant dentistry.

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
