Message from the Guest Editors

Dear Colleagues,

The aim of this Special Issue is to present the excellent women researchers in the field of Earth sciences and geography. In particular, we would like to focus on issues concerning the natural fluids emitted from the Earth.

We invite researchers to submit original manuscripts focusing on natural fluid emission from diverse fields including, but not limited to, the following: 1) geochemical characterization and description of fluids emitted (e.g., isotopic and chemical data) in several geodynamic contexts; 2) monitoring of fluids emitted in volcanic and active tectonic systems; 3) interaction and fractionation processes of deep fluids in a sub-surface environment (e.g., groundwater and lake); 4) deep fluids and volatile reservoirs; 5) role of fluids in seismogenic processes; 6) environmental impact of natural fluid emissions; 7) global budget and modeling of CO₂ emissions. We also welcome papers focusing on techniques, methods, and applications related to natural fluid investigations.

Contributions in which women are the first author or the corresponding authors of the manuscripts are strongly encouraged.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo

Dipartimento di Fisica,
Politecnico di Milano, Piazza L.
da Vinci 32, 20133 Milano, Italy

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Engineering, Multidisciplinary*) / CiteScore - Q1 (*General Engineering*)
