## Interaction of Electrons with Atoms, Molecules and Surfaces

Guest Editor:

**Prof. Dr. Károly Tókési**

Institute for Nuclear Research  
(ATOMKI), H-4001 Debrecen,  
Hungary

Deadline for manuscript  
submissions:

**closed (15 December 2022)**

### Message from the Guest Editor

For this Special Issue we invite original contributions covering all aspects of electron interaction with atoms, molecules and surfaces such as:

Electron collision-induced physical, chemical and biological reactions;

Ultrafast dynamics;

Transmission and reflection mode electron spectroscopy of solids;

Electron Rutherford backscattering spectroscopy;

Collective as well as single-particle excitation and ionization;

Electron–electron correlation effects in atoms, molecules and solids;

Excitation and single and multiple ionization of various targets;

Energy loss, scattering and channeling of primary particles;

Electron emission processes.

The contributions may include new theoretical or computational approaches, new experimental techniques, electron spectroscopy data, calculations and measurements of various processes. The goal is to provide an overview of current research in the field, of new insights, developments, applications and open problems.

## Editor-in-Chief

### Dr. James F. Babb

Institute for Theoretical Atomic  
and Molecular Physics, Center for  
Astrophysics | Harvard &  
Smithsonian, Cambridge, MA  
02138, USA

## Message from the Editor-in-Chief

The scope of *Atoms* is deliberately wide and encompasses a large part of theoretical and experimental atomic, molecular, nuclear, and chemical physics in order to encourage cross-disciplinary connections, while supporting the more traditional idea of individual subfields. The journal is also interested in papers concerning the computation and compilation of data related to applications in the above areas. Details of experimental methods and codes are welcome. Your research is taken seriously and peer-reviewed with care. I encourage you to contact me or any of the Editorial Board Members for further information.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, ESCI (Web of Science), Astrophysics Data System, Inspec, CAPlus / SciFinder, INSPIRE, and other databases.

**Journal Rank:** CiteScore - Q2 (*Nuclear and High Energy Physics*)
