Deadline for manuscript  
submissions:

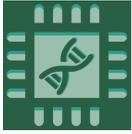

**20 August 2022**

### Message from the Guest Editor

Thanks to newly developed biosensor technologies and materials, a great number of novel computer-aided designs/ computer-aided manufacturing (CAD/CAM) systems, three-dimensional (3D) printers, additive manufacturing, and printing materials have been—and continue to be—significantly improved, which, consequently, is aiding advancements in the fields of dental and medical engineering.

In this Special Issue, we would like to invite submissions of research on the development of technologies and materials for photopolymer jetting (LCD and DLP), stereo-lithography (SLA), fused deposition modeling (FDM), selective laser sintering (SLS), and powder-binder printing systems. Research on the development of digital scanning systems, 3D-CT, optical coherence tomography (OCT), pH sensors, color measurement devices, videography devices and CAD software is also welcome. We encourage you to submit your manuscript with us and publish it.

an Open Access Journal by MDPI

Department of Chemistry “Ugo Schiff”, University of Florence, via della Lastruccia 3, 50019 Sesto Fiorentino, Italy

## Message from the Editor-in-Chief

*Biosensors* is a leading journal, devoted to fast publication of the latest achievements, technological developments and scientific research in the exciting multidisciplinary area of biosensors. Both experimental and theoretical papers are published, including all aspects of biosensor design, technology, proof of concept and application. Special issues are devoted to specific technologies and applications, and a selection of the most outstanding papers each year is recognized. Pushing the boundaries of the discipline, we invite original papers, as well as timely reviews on cutting edge fields within the subject area.

## Author Benefits

**Open Access:**— free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, CAPLus / SciFinder, Inspec, and many other databases.

**Journal Rank:** JCR - Q1 (*Chemistry, Analytical*) / CiteScore - Q2 (*Clinical Biochemistry*)
