INSERM UMR1238, Nantes University, Nantes, France

#### Dr. Franck Verrecchia

INSERM UMR1238, PHY-OS, Bone Sarcomas and Remodeling of Calcified Tissues, Nantes University, 44000 Nantes, France

Deadline for manuscript submissions:

closed (30 September 2022)

# **Message from the Guest Editors**

We invite you to submit either an original research or a review article to this Special Issue on "Primary Bone Tumors: Microenvironment, Signaling and Therapeutic Targeting". Specific topics covered in this issue include basic, translational and clinical research in the field of primary bone tumors. We would like to shed light on recent findings describing key molecular and cellular pathways driving primary tumor growth, metastatic development and resistance to treatment. In this context, we are interested in studies describing original works regarding not only tumor cells but also their microenvironment considering endothelial, immune and bone cells.

## **Message from the Editor-in-Chief**

Cancers is an international online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in Open Access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

### **Author Benefits**

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (Oncology) / CiteScore - Q1 (Oncology)
