Fishing for Health: Zebrafish Models of Human Disease

Guest Editors:

Dr. Kinga Gawel

Department of Experimental and Clinical Pharmacology, Medical University of Lublin, 8b Jaczewskiego Str., 20-090 Lublin, Poland

Dr. Wietske van der Ent

Centre for Molecular Medicine, University of Oslo, Oslo, Norway

Dr. Tomasz K. Prajsnar

Department of Microbiology, Faculty of Biochemistry, Biophysics and Biotechnology, Jagiellonian University, Kraków, Poland

Deadline for manuscript submissions:

closed (1 April 2022)

Message from the Guest Editors

Dear Colleagues,

In this Special Issue of *Cells* on “Fishing for Health: Zebrafish Models of Human Disease”, we invite colleagues from different fields ((neuro)developmental disorders, infectious and inflammatory disease, cancer, pharmacology, toxicology, etc.) working with zebrafish to submit novel research articles or reviews with zebrafish as a model of interest. This special issue is prepared with the support of The Polish Zebrafish Society (<http://www.zebrafish.org.pl>).

Keywords

- Zebrafish
- toxicology
- pharmacology
- disease models
- screening
- host–pathogen interactions
- infectious and inflammatory diseases

Prof. Dr. Cord Brakebusch

Biotech Research & Innovation
Centre, The University of
Copenhagen, Copenhagen,
Denmark

Message from the Editorial Board

Cells has become a solid international scientific journal that is now indexed on SCIE and in other databases. We have successfully introduced a special issues format so that these issues serve as mini-forums in specific areas of cell science. *Cells* encourages researchers to suggest new special issues, serve as special issues editors, and volunteer to be reviewers. Our main focus will remain on cell anatomy and physiology, the structure and function of organelles, cell adhesion and motility, and the regulation of intracellular signaling, growth, differentiation, and aging. We are open to both original research papers and reviews.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [CAPus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Cell Biology*) / CiteScore - Q1 (General Biochemistry, Genetics and Molecular Biology)
