Message from the Guest Editors

Dear Colleagues,

Welcome to a Special Issue of the *Advances in Cardiopulmonary Resuscitation in Infants* Journal, dedicated to shedding light on the most pressing and innovative aspects of *Advances in Cardiopulmonary Resuscitation in Infants*. In this curated collection, we delve into the intricacies of newborn care, exploring the forefront of research, breakthrough interventions, and transformative practices that define the landscape of infants' health.

From the first delicate breath to the complex challenges faced by premature infants, we aim to provide a comprehensive platform for scholars and researchers to share their insights, discoveries, and advancements. The journey from womb to world is a critical phase, and our Special Issue encapsulates the urgency of pushing boundaries to ensure the optimal health and infants' development.

Through rigorous exploration of topics spanning from neonatal intensive care to cutting-edge diagnostics, we invite you to join us in shaping the future of cardiopulmonary resuscitation. The pages ahead are a testament to our commitment to fostering a thriving exchange of knowledge that will catalyze transformative progress in this vital field.
