

## Current Trends in Coatings and Films for Optical Sensors

Guest Editors:

**Dr. Farhan Mumtaz**

Assistant Professor (Research),  
Department of Electrical and  
Computer Engineering, Missouri  
University of Science and  
Technology, Rolla, MO 65409-  
0040, USA

**Prof. Dr. Yutang Dai**

National Engineering Laboratory  
for Fiber Optic Sensing  
Technology, Wuhan University of  
Technology, Luoshi Road 122,  
Wuhan 430070, China

**Dr. Jie Huang**

Department of Electrical and  
Computer Engineering, Missouri  
University of Science and  
Technology, Rolla, MO 65409,  
USA

Deadline for manuscript  
submissions:

**31 August 2024**

### Message from the Guest Editors

We are pleased to invite you to submit papers on the latest trends in coatings and films for optical sensors. This topic is of great importance in various industries, including healthcare, automotive, and aerospace, where the development of high-performance optical sensors is essential for continued progress.

Papers that explore new coating materials, enhanced functionality, improved sensitivity and selectivity, increased durability, and sustainable coating materials are highly encouraged. We welcome original research, review articles, and case studies that contribute to the advancement of knowledge in this field. The main points for the topic of interest includes but are not limited to:

- gas sensing coatings
- volatile organic compound (VOC) sensing coatings
- metal–organic framework (MOF) coatings
- nanoparticle coatings
- polymer coatings
- composite coatings
- multi-layer coatings
- anti-corrosion coatings
- anti-static coatings
- anti-icing coatings
- selectivity
- durability
- wear resistance

We look forward to receiving your submissions and thank you for your contributions to the field of coatings and films for optical sensors.

# Special Issue

## Editors-in-Chief

**Prof. Dr. Wei Pan**

State Key Laboratory of New  
Ceramics and Fine Processing,  
School of Materials Science &  
Engineering, Tsinghua University,  
Beijing 100084, China

**Dr. Emerson Coy**

NanoBioMedical Centre, Adam  
Mickiewicz University in Poznań,  
ul. Wszechnicy Piastowskiej 3, 61-  
614 Poznań, Poland

## Message from the Editorial Board

Now more than ever, research is asked to deliver knowledge and technologies to solve the major challenges faced by our society. The development of new materials and devices for (without the ambition to be exhaustive) energy, health and food technology, together with the need for establishing processes that reduce the impact on critical resources and the environment, is indeed in the spotlight of most contemporary research. Surface science and engineering play a key role in this regard, with an incredible potential in delivering new and deep scientific understanding and technical solutions essential to solve most of the major societal challenges.

Coatings is a well-established, peerreviewed, online journal dedicated to the vibrant field of surface science and engineering. Coatings publishes original research articles that report cutting-edge results and review papers that make the point on the hottest research topics.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Materials Science, Coatings & Films*) / CiteScore - Q2 (*Surfaces and Interfaces*)
