an Open Access Journal by MDPI

## Advances in Industrial Crystallization

Guest Editors:

**Prof. Dr. Heike Lorenz**

Max Planck Institute for  
Dynamics of Complex Technical  
Systems, 39106 Magdeburg,  
Germany

**Dr. Erik Temmel**

DSM Nutritional Products AG,  
Sisseln, Switzerland" to "Sulzer  
Chemtech Ltd, Basel, Switzerland

Deadline for manuscript  
submissions:

**closed (30 June 2020)**

### Message from the Guest Editors

According to the industrial importance and wide application field of crystallization, active research is performed on a broad range of subjects covering fundamentals (e.g. phase equilibria, kinetics and crystallography), analytical tools for crystallization monitoring, separation process design and optimization, product development and, addresses integrated process chains and sustainability issues as well. Considering these variety of potential topics, the scope of this Special Issue on "Advances in Industrial Crystallization" is intentionally broad. We invite interdisciplinary contributions concerning both, understanding crystallization processes and crystallization behavior of compounds, and their applications in commodities and fine chemicals industries and sustainability fields.

## Editor-in-Chief

**Prof. Dr. Alessandra Toncelli**

Department of Physics, University  
of Pisa, 56126 Pisa, PI, Italy

## Message from the Editor-in-Chief

Welcome to *Crystals*, the journal dedicated to the fascinating world of crystallographic research! Crystals are more than mere decorative elements; they hold the key to understanding the fundamental structure of matter. Our mission is to explore the crucial significance of this research across various fields. From medicine to technology, chemistry to geology, crystals play a vital role. Their structure provides insights into new advanced materials, innovative drugs, and groundbreaking technologies. Through *Crystals*, we delve into the microscopic world to discover solutions that will shape the future. Join us on a journey through the *Crystals*, where science merges with beauty and innovation.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [Inspec](#), [CAPus](#) / [SciFinder](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (*Crystallography*) / CiteScore - Q2 (*Condensed Matter Physics*)
