Message from the Editor-in-Chief

I have the great pleasure of announcing that *Dermatopathology* received its first Impact Factor, 1.9, in June 2023, meaning that it has the highest Impact Factor journal among all the existing dermatopathology journals. This immense success was a result of excellent work of the Editorial team with the meticulous selection and peer reviewing of high-quality articles covering the different aspects of cutaneous pathology. This journal publishes case reports, communications, full articles, research articles and reviews on clinical, molecular and investigative dermatopathology through several Special Issues per year. The journal's publications are indexed in PubMed. I encourage all the specialists in cutaneous pathology to submit their original research to *Dermatopathology*.

Editor-in-Chief

Prof. Dr. Gürkan Kaya

Aims

Dermatopathology (ISSN 2296-3529) is a peer-reviewed open access journal providing an advanced forum for studies related to diagnostic and experimental animal and human studies in dermatopathology.

The aims of *Dermatopathology* are to share interesting and recent clinicopathological information with dermatopathologist communities from around the world, and to create a stronger link between dermatopathology, clinical dermatology, and investigative dermatology. Contributions to clinicopathological correlations, studies based on current molecular technologies, and controversial issues are all welcome.

Scope

- Histopathology
- Immunohistochemistry
- Benign cutaneous tumors
- Melanoma
- Non-melanoma skin cancer
- Other malignant tumors of the skin
- Inflammatory skin diseases
- Molecular dermatopathology
- Clinico-pathological correlation
- Clinical dermatology
- Investigative dermatology

Author Benefits

Open Access

Unlimited and free access for readers

Discounts on Article Processing Charges (APC)

If you belong to an institute that participates with the MDPI Institutional Open Access Program

Coverage by Leading Indexing Services

ESCI (Web of Science), PubMed, PMC, Embase, and other databases

Rapid Publication

A first decision is provided to authors approximately 29.9 days after submission; acceptance to publication is undertaken in 3.9 days (median values for papers published in this journal in the second half of 2023)
