Oceanografia, Madrid, Spain

Deadline for manuscript  
submissions:  
**closed (15 July 2023)**

### Message from the Guest Editor

Dear Colleagues,

The most worrying problem today is climate change and its devastating consequences. These consequences are becoming increasingly evident in the seas and oceans. Numerous studies have provided scientific evidence of the magnitude of climate change and the degradation of ecosystems.

The marine environment is very complex, with many abiotic and biotic interactions. Understanding the impacts of climate change on the ocean begins with an understanding of its biodiversity and how it functions. This is crucial to provide preventive measures, and to designate and declare marine protected areas in order to ensure the conservation of ocean biodiversity.

This Special Issue focuses on the study of benthic communities. We invite papers that contribute to scientific knowledge on benthic communities at different local, regional and/or global levels. In addition, studies on different marine taxa, taxonomic diversity, ecology, dynamic, habitats and multidisciplinary techniques and methods are welcome.

Dr. Elena Marco-Herrero

## Message from the Editor-in-Chief

*Diversity* (ISSN 1424-2818) is a scholarly journal that covers all areas of diversity research. Our distinguished editorial board and refereeing process ensures the highest degree of scientific rigor for publishing. Original research articles and timely reviews are released online, with unlimited free access.

We invite papers and reviews on multidisciplinary topics of diversity that bridge organismic diversity (systematics, biodiversity, phylogeny, population genetics, and evolution) and molecular diversity (phytochemistry and biophysics).

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubAg, GEOBASE, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Biodiversity Conservation*) / CiteScore - Q2 (*Agricultural and Biological Sciences (miscellaneous)*)
