Message from the Guest Editors

Dear Colleagues,

The automation industry includes acquisition, transmission, calculation, and other links, and the Internet of Things (IoT) includes comprehensive sensing, reliable transmission, intelligent processing, and other related concepts. The two are closely related, and automation industry has now become one of the main potential fields of application of IoT technology.

The topics of the Special Issue include but are not limited to the following:

- Edge/fog computing;
- Intelligent IoT;
- Wireless sensor networks;
- Industry IoT;
- Mobile communication;
- 5th generation mobile communication technology;
- Big data;
- Automation technology.

an Open Access Journal by MDPI

Telecommunications,
Politecnico di Torino, 10129
Torino, Italy

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, and other databases.

Journal Rank: JCR - Q2 (*Electrical and Electronic Engineering*) CiteScore - Q2 (*Electrical and Electronic Engineering*)
