Telecommunication Engineering,
University of Engineering and
Technology, Taxila 47050,
Pakistan

Deadline for manuscript
submissions:

closed (30 April 2022)

Message from the Guest Editors

The main objective of this Special Issue is to report recent advances in antenna designs from sub-6 GHz to THz frequency spectrum for 5G and beyond communications and sensing systems. Authors of both theoretical and application-oriented papers presenting emerging antenna technologies including massive MIMO, beamforming MIMO/arrays, along with the design of intelligent reflecting surfaces are most welcome to submit their manuscripts.

Submissions can focus on conceptual and applied research, including but not limited to the following topics:

- MIMO full-duplex antenna system
- Massive MIMO antennas
- Intelligent Reflecting Surfaces for 5G and beyond
- Phased array and beamforming antennas
- mm-wave and THz antennas
- Metamaterial/metasurface based antennas
- Reconfigurable antennas
- Multi-band antennas
- Sub-6 GHz and mm-wave integrated antennas
- Base station and terminal antennas
- Wearable and implantable antennas
- Antennas for wireless sensing and wireless power transfer
- Antenna design techniques and measurement for 5G

an Open Access Journal by MDPI

Editor-in-Chief

Torino, Italy

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [CAPlus / SciFinder](#), [Inspec](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Electrical and Electronic Engineering*) CiteScore - Q2 (*Electrical and Electronic Engineering*)
