an Open Access Journal by MDPI

Research on Advanced Energy Materials for Meeting Global Energy Challenges

Guest Editors:

Dr. Krzysztof Jastrzębski

Department of Materials Science
and Engineering, Lodz University
of Technology, 1/15
Stefanowskiego Street, 90-537
Łódź, Poland

Prof. Dr. Piotr Kula

Department of Surface
Engineering and Heat Treatment,
Lodz University of Technology,
90-924 Lodz, Poland

Deadline for manuscript
submissions:

12 October 2024

Message from the Guest Editors

Dear Colleagues,

This Special Issue aims to present research data, reviewing material and case scenarios of planned or conducted implementation processes related to the usage of modern materials towards reducing the world's biggest energy problem. Potential topics for publication in that issue include, but are not limited to, the following:

- carbon-based materials for energy storage;
- hydrogen storage perspective;
- composites as energy materials;
- energy magazines;
- equipment and technologies towards the implementation of proctological energy production and consumption;
- ways of overcoming energetic exclusion;
- reduction in energy loss during transmission;
- materials used for batteries and capacitors;
- superconductivity phenomenon;
- renewable energy;
- performance analysis;
- technologies for reducing CO₂ emissions;
- chains of the sustainable production and consumption of energy;
- industrial scale-up of green energy approaches.

Eudossiana 18, 00184 Roma, Italy

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (*Engineering (miscellaneous)*)
