an Open Access Journal by MDPI

Carbon, Water, Energy, and Land-Use Footprint

Guest Editors:

Dr. Emanuele Bonamente

Department of Engineering,
University of Perugia, 06125
Perugia, Italy

Dr. Flavio Scrucca

Department of Sustainability,
Circular Economy Section, ENEA,
Italian National Agency for New
Technologies Energy and
Sustainable Economic
Development, 00059 Rome, Italy

Deadline for manuscript
submissions:

closed (25 February 2022)

Message from the Guest Editors

It is my pleasure to invite you to submit your research paper to the Special Issue of *Energies* (ISSN 1996-1073; CODEN: ENERGA) dedicated to “Carbon, Water, Energy and Land-Use Footprint”.

This Special Issue was specifically designed to exploit the nexus between energy and environment, focusing on the main footprints that human activities produce on natural resources.

Submission of papers within the journal scope, including primary and secondary energy sources, energy exploitation, storage, and conversion, policy, research and development, aiming at increasing the present knowledge of their impact on the environment, is particularly encouraged.

Contributions are expected to shed new light, from a life-cycle perspective, into the effect of present and future energy systems on climate change, water availability, natural resources, and environment, possibly suggesting effective and viable strategies to support their sustainability.

Eudossiana 18, 00184 Roma, Italy

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (*Engineering (miscellaneous)*)
