Modern Electrical Drives: Trends, Problems, and Challenges 2023

Guest Editors:

Prof. Dr. Krzysztof Szabat

Department of Electrical
Machines, Drives and
Measurement, Wrocław University
of Science and Technology, 50-
370 Wrocław, Poland

Prof. Dr. Seiichiro Katsura

Faculty of Science and
Technology, Keio University,
Tokyo 105-8511, Japan

Dr. Karol Kyslan

Department of Electrical
Engineering and Mechatronics,
Faculty of Electrical Engineering
and Informatics, Technical
University of Košice, 042 00
Košice, Slovakia

Deadline for manuscript
submissions:

30 June 2024

Message from the Guest Editors

In this Special Issue, the topics related to trends, problems, and challenges linked to design and exploitation will be presented. Papers in (but not limited to) the following scope are welcome:

- Control strategies for different types of electrical motors (DC, ACIM, PMSM, synRM, SRM, etc.);
- Sensor-less control of electrical drives. Estimation of the non-measurable states and parameters;
- Application of advanced control methodologies (fuzzy, neural, robust, predictive etc.) for high performance control of electrical drives;
- Control of complex mechatronic systems taking into account the mechanical part of the system;
- Diagnosis, monitoring and prognosis in electrical drives;
- Fault-tolerant control of electrical drives;

Drives and renewable energy systems. Novel topologies of the power converters dedicated to electrical drives.

Aerospace Engineering,
University of Roma Sapienza, Via
Eudossiana 18, 00184 Roma, Italy

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (*Engineering (miscellaneous)*)
