Advanced Analytics in Renewable Energy

Guest Editor:

Prof. Dr. Fausto Pedro García Márquez

Ingneium Research Group,
Universidad de Castilla-La
Mancha, Ciudad Real, Spain

Deadline for manuscript
submissions:

closed (31 July 2021)

Message from the Guest Editor

Dear colleagues,

The Special Issue covers research in advanced analytics in renewable energy and shows how to apply it to many different professional areas, e.g., engineering and management. Each paper of the Special Issue is contributed by a different author from across the world and covers a different area of analytics applied to renewable energy. The Special Issue connects the analytic principles with business practice and provides an interface between the main disciplines of engineering/technology and the organizational, administrative, and planning abilities of management in renewable energy. It also refers to other disciplines such as economy, finance, marketing, behavioral economics, and risk analysis. This Special Issue is of particular interest to researchers, engineers and economists who are developing new advances in analytics but also to practitioners working on this subject.

Eudossiana 18, 00184 Roma, Italy

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (*Engineering (miscellaneous)*)
