State of the Art Electric Vehicle Technology in China

Collection Editors:

Dr. Xuhui Wen

Prof. Dr. Kangli Wang

Prof. Dr. Qingsong Wang

Prof. Dr. Xia Lu

Prof. Dr. Zhonghao Rao

Prof. Dr. Junnian Wang

Dr. Quanqing Yu

Message from the Collection Editors

Dear Colleagues, we set up this Special Issue to collect papers on China's advanced electric vehicle technology and development trends, while providing some new directions for thinking about electric vehicle development in China and even the world. We invite papers on innovative technical developments, reviews, case studies, as well as analytical and assessment papers from different disciplines that are relevant to the topic of electric vehicles.

Keywords:

- Intelligent electric vehicles
- Energy storage
- Motor drive
- Power electronic
- Vehicle dynamics
- Big data
- Optimization and management

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (*Engineering (miscellaneous)*)
