Message from the Guest Editors

The scope of this Special Issue is to publish and publicise recent and original research, practice, and educational developments in power engineering from Australian electricity supply industries and universities.

This Special Issue will provide a comprehensive overview on the state-of-the-art energy-related technologies in Australia. We welcome research articles and reviews that will contribute towards providing a consolidated, up-to-date perspective in energy-related areas. Potential topics include, but are not limited to the following:

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (*Engineering (miscellaneous)*)
