

environments

Dear Colleagues,

On behalf of the Evaluation Committee, we are pleased to announce the winner of the 2018 *Environments* Travel Award. This has been granted to **Dr. Jose Luis Díaz De Tuesta Triviño**, a postdoctoral researcher at the *Polytechnic Institute of Bragança (IPB)*, Portugal. He works in the treatment of oily wastewater using an advanced oxidation process with amphiphilic carbon-based materials. To date, he has worked with carbon nanotubes, graphene, activated carbon and xerogel carbonas catalysts.

2018 TRAVEL AWARD WINNER

His work not only consists of the assessment of carbon-based catalysts in these treatments, but also their production and chemical modification in order to increase their catalytic activity in the processes.

Prof. Dr. Yu-Pin Lin

Editor-in-Chief

Environments (ISSN 2076-3298) is an international open access journal of environmental sciences published quarterly online by MDPI. The award consisted of **800 Swiss Francs**, to attend an academic conference of choice in 2018. We would like to thank all the applicants for submitting their diverse and fascinating research topics.
