Advances in New Energy Materials and Fire Safety

Guest Editors:

Dr. Que Huang

Dr. Jian Wang

Dr. Jingwen Weng

Dr. Ao Li

Deadline for manuscript submissions:

4 September 2024

Message from the Guest Editors

This Special Issue aims to investigate the fire safety of new energy materials. We invite contributions on a range of topics related to energy technology, including, but not limited to:

- Thermal stability analysis of typical combustible components inside electrochemical power sources such as cathode, anode, electrolyte, and separator in batteries;
- Flammable gases and oxygen leakage prevention methods for fuel cell systems;
- Construction of battery thermal management system using composite materials such as phasechange materials with heat storage properties;
- Simulation and calculation methods for heat and mass transfer of power systems.
