Message from the Guest Editors

Feeding the growing world population is going to be a global food supply challenge for our existing food systems in the coming decades.

Currently, food innovation and product development activities are heavily focused on new protein sources to provide alternative to animal-based foods. Allergenicity risk to public health from emerging protein sources such as insects, microalgae, cultured meats, and legumes would need to be managed as these foods are being introduced in the global food supply. Novel food production approaches are equally important for improving food handling and transportation practices, developing processing technologies to enhance the utilization of foods, and providing maximum nutritional benefits to the consumer. Food safety and public health protection are also a key element of emerging global food systems.

The present Special Issue encourages submissions from food scientists, agri-food technologists, food product technologists, microbiologists, and nutritionists working in related fields of science.

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [FSTA](#), [AGRIS](#), [PubAg](#), and [other databases](#).

Journal Rank: JCR - Q1 (*Food Science & Technology*) / CiteScore - Q1 (*Health Professions (miscellaneous)*)
