Winner announcement date: February 2022

On behalf of the Section Editor-in-Chief, Prof. Dr. Timothy A. Martin, we wish to acknowledge our reviewers, who so generously donate their time to review papers submitted to *Forests*, by presenting an award to reviewers who have demonstrated their dedication, professionalism, and timeliness in reviewing manuscripts for *Forests*.

Although anonymous peer-review is one of the cornerstones of publishing high-quality comprehensive manuscripts for the advancement of science and engineering research, it is also often one of the most underappreciated of the many requests and demands made of subject experts. It is for this reason that the *Forests* Editorial Team is extremely grateful to reviewers for the time, energy, and dedication that they freely provide to support their peers.
