and Furniture Technology,
Aristotle University of
Thessaloniki, 54124 Thessaloniki,
Greece

Dr. Vasiliki Kamperidou

Department of Forestry and
Natural Environment, Aristotle
University of Thessaloniki, 541 24
Thessaloniki, Greece

Deadline for manuscript
submissions:

closed (15 February 2024)

Message from the Guest Editors

Standardization is a key factor concerning the organization of society and has a significant impact on the system of transactions and production processes. It concerns all people since it can be applied to all the fields of human activity. Its application can be implemented spontaneously as a result of a habit or a custom, but it can also be implemented consciously after thoroughly planning with the introduction and application of certain rules described in technical specifications/norms or standards.

The specific Special Issue focuses on the analysis of the standardization of round wood, sawn wood, wood-based products (veneers, plywood, glued laminated timber, fiberboards, particleboards, OSB, CLT, LVL, wood–plastic composites, among others), wooden structures and furniture, chemical products of wood and its components, forest biomass-based biofuels (pellets, briquettes, etc.), wood adhesives, wood preservatives and the respective methods applied for the production of wood products, as well as their preservation and quality assessment.

Message from the Editorial Board

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access.

Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

Journal Rank: JCR - Q1 (*Forestry*) / CiteScore - Q1 (*Forestry*)
